Acknowledgement

With a deep sense of gratitude and indebtedness, I thank my research mentor, Dr. R.K. Kohli, Professor and Chairman, Department of Botany, Ex-coordinator, Department of Environment and Vocational Studies, Panjab University, Chandigarh for his invaluable guidance, encouraging attitude and keen interest. His scientific, methodological, focused and positive approach combined with exceptional zeal and dynamism is some of his qualities which I admire most and I often yearn for them. He will remain a source of inspiration to me throughout my life. I am privileged to have worked under him.

Firstly, I would like to thank my co-supervisor, Dr. H.P. Singh, Assistant Professor, Department of Environment and Vocational Studies, Panjab University, Chandigarh for his noteworthy guidance on this research topic. His valuable suggestions, outstanding interdisciplinary knowledge and constructive criticism over the repeated cup of tea will be fondly remembered. I am highly thankful for his immense help during the entire research period. His guidance and thoroughness have been innumerable.

I would like to express my deepest and sincere gratitude to my co-supervisor Dr. Upma Bagai, Assistant Professor, Department of Zoology, Panjab University, Chandigarh for her excellent guidance, encouragement and insights into the subject. Always boosting the morale and straightforwardness are some key qualities to always follow.

I owe a great debt to Dr. Neelima R. Kumar, Professor, Department of Zoology, Panjab University, Chandigarh for her excellent guidance throughout research work, motivation and sincere efforts for completion has been highly appreciated. Her altruism guidance and thoroughness have been invaluable.

I express my gratitude to Dr. Daizy R. Battish, Professor, Department of Botany, Panjab University, Chandigarh for her immense help, invaluable guidance, advising and encouragement throughout my work, I am also indebted for providing me Lab. facilities and research material for experiments.

I am enormously thankful to Prof. A.S. Ahluwalia, Chairman, Department of Environment and Vocational Studies, Panjab University, Chandigarh, for providing me all the facilities required to complete this research work.
I am extremely grateful to Prof. Mridula Jain, Chairperson, Department of Zoology, Panjab University, Chandigarh for providing me with the necessary help during the tenure of this work.

My heartiest thanks are also due to my lab mates Shalinder Kaur, Gurpreet, Mukta, Nudhi, Nada, Nistha, Savita, Esmaeil, Sartaj and Dr. Anamika of Ecophysiology Lab, Department of Botany, Panjab University and Arvathy Rajan, Neha, Shagun and Isha of Department of Zoology for their ready cooperation, helpful advice and support in lab work.

I would also like to thank the non-teaching staff of the department of Botany, Zoology and Environment Science, Panjab University, Chandigarh for their help during lab work especially to Lalan, Harikrishan and Balwinder Kumar for their help and support. Thanks are owed to many other colleagues for their help with apologies for those not listed.

I fall short of words in expressing my deep sense of acknowledge to my worthy mother whose encouragement, moral support and everlasting love and affection enabled me to accomplish this thesis work.

Finally, I would like to thank my family for supporting me during this period especially my wife Neelam, daughter Komal and my little son Vinay for being patient supportive in my most frustrating moments.

Above all, I thank and admire God Almighty for giving me strength, patience and courage all these years and taking care of all my needs.
