Acknowledgements

Words are too feeble a medium to express my sincere feelings of gratitude for my esteemed supervisor Prof. Malvinder Ahuja, Department of Education, Panjab University, Chandigarh. She combines in her the rare qualities of head and heart. As my supervisor and guide, she has all along been very considerate, helpful and cordial in her searching criticism from time to time. She gave me full liberty to encroach upon her time even to her inconvenience.

I am also extremely grateful to respected Prof. Anand Bhushan for his priceless advice now and then, which kept on boosting me to walk steadily towards the attainment of my goal.

My thanks are due for Chairperson, Dr. Nandita, Department of Education, Panjab University, Chandigarh for providing me research facilities in the department.

I am also thankful to Prof. Raj K. Gupta for her advice and co-operation. My thanks are due for all my colleagues and other staff members who helped me throughout to complete this research work.

I am thankful to all the researchers and authors whose works I have used and quoted in my research report and without which it would not have been possible to link the missing gaps. I extend a note of thanks to the principals, teachers, students and their parents for co-operating whole heartedly all through data collection.

I owe a never-ending sense of gratitude, love and respect to my parents and all family members especially all younger ones, for their co-operation, otherwise this thesis could never have been completed.

My dear friend Krishan Gogia played a very significant role in completion of this project by having the faith that I could do it. Thanks for always being there, dear.

Special Thanks to Anil Verma, Pradeep Solath & Umesh for always encouraging me to perform better.

I would also like to thank Mr. Sandeep for assisting me in typing.

Above all, I thank the Almighty God for everything...He blessed me with.
