CHAPTER - I  INTRODUCTION  1 - 70
1.1 Orthopaedically Handicapped: Definition and Prevalence  5
  1.1.1 Definition  5
  1.1.2 Prevalence  8
1.2 Employment of the Orthopaedically Handicapped  12
  1.2.1 Kinds of Employment for the Orthopaedically Handicapped  13
  1.2.2 Provisions for Employment of Handicapped  16
  1.2.3 Legal Protection for Employment of Handicapped  21
1.3 Rehabilitation of Orthopaedically Handicapped  22
  1.3.1 Forms of Rehabilitation  22
  1.3.2 Process and Procedures of Rehabilitation for Handicapped  24
  1.3.3 Rehabilitation of Orthopaedically Handicapped in Iran  28
1.4 Global Trends on Employment, Rehabilitation and Status of the Orthopaedically Handicapped  33
1.5 Self-Esteem  39
  1.5.1 Structure and Measurement of Self-Esteem  40
  1.5.2 Sources and Functions of Self-Esteem  46
  1.5.3 Development of Self-Esteem  47
1.6 Self-Esteem and Handicap  52
1.7 Mental Health  56
  1.7.1 Medical Perspective of Mental Health  56
  1.7.2 Psychological Perspective of Mental Health  58
  1.7.3 Social Perspective of Mental Health  60
  1.7.4 Dimensions of Mental Health  62
1.8 Mental Health and Handicap  64
1.9 Statement of the Problem  68
1.10 Operational Definitions  68
1.11 Delimitations  70

CHAPTER - II  REVIEW OF LITERATURE  71 - 118
2.1 Self-Esteem, Employment Status, Vocational Training and Sex  72
  2.1.1 Self-Esteem and Employment Status  72
  2.1.2 Self-Esteem and Vocational Training  79
  2.1.3 Self-Esteem and Sex  85
2.2 Mental Health, Employment Status, Vocational Training and Sex

2.2.1 Mental Health and Employment Status

2.2.2 Mental Health and Vocational Training

2.2.3 Mental Health and Sex

2.3 Self-Esteem and Demographic Variables

2.3.1 Self-Esteem and Age

2.3.2 Self-Esteem and Level of Education

2.3.3 Self Esteem and Marital Status

2.3.4 Self-Esteem and Length of Employment and Unemployment Periods

2.4 Mental Health AND Demographic Variables

2.4.1 Mental Health and Age

2.4.2 Mental Health and Level of Education

2.4.3 Mental Health and Marital Status

2.4.4 Mental Health and Length of Employment and Unemployment Periods

2.5 Aims of the Study

2.6 Hypothesis

CHAPTER III METHOD

3.1 Design

3.2 Sample

3.3 Tools Used

3.4 Procedure

3.5 Statistical Techniques Used

CHAPTER IV RESULTS AND DISCUSSION

4.1 Basic Assumptions Underlying ANOVA

4.1.1 Normality of the Distribution of Criterion Measures

4.1.2 Homogeneity

4.1.3 Independence of the Dependent Scores

4.1.4 Summation

4.2 Effects of (A) Employment Status, (B) Vocational Training and (C) Sex on the (a) Self-Esteem and (b) Mental Health of Orthopaedically Handicapped

4.2.1 Employment Status, Vocational Training, Sex and Self-Esteem

4.2.2 Employment Status, Vocational Training, Sex and Mental Health
4.3 Significance of Differences Between the Means of (a) Self-Esteem and (b) Mental Health of Employed and Unemployed Orthopaedically Handicapped with Respect to the Demographic Variables

4.3.1 Demographic Variables and Self-Esteem 211
4.3.2 Demographic Variables and Mental Health 226

CHAPTER V SUMMARY AND CONCLUSIONS 243 – 267

5.1 Statement of the Problem 247
5.2 Operational Definitions 247
5.3 Delimitations 248
5.4 Aims of the Study 249
5.5 Hypotheses 250
5.6 Design 251
5.7 Sample 252
5.8 Tools Used 255
5.9 Procedure 256
5.10 Statistical Techniques Used 256
5.11 Findings and Conclusions 257
5.12 Psychological Implications and Suggestions for Further Studies 264

BIBLIOGRAPHY 268 – 303

APPENDICES i – xvi
