Appendix I

Publications and presentations based on the study

Publication:

Conference contributes:

4. Thermo Stable Cytochrome P-450cam from alkaliphilic and neutrophiles.  

5. Biodegradation of Fluoranthene and pyrene by alkalophilic bacteria Bacillus badius.  

6. Biodegradation of Polycyclic aromatic hydrocarbons (PAHs) and effect of various parameters on the degradation.  

9. Biotransformation of Polycyclic Aromatic Hydrocarbons by Whole cell Catalyst  

10. Comparative studies on Cytochrome P-450cam from alkaliphiles and neutrophiles.  

11. Alteration in Nickel uptake in Bacillus sphaericus.
