ACKNOWLEDGEMENTS

No work or project can ever be completed without the guidance, support and motivation of elders.

I express my sincerest gratitude for my research guide Dr. Anand Bhushan, Chairman, Department of Education, who was the moving force behind this research. His knowledgeable and untiring motivations made me see the work bear fruit beyond my capabilities.

I owe a sense of unbounded indebtedness to Dr. Mrs. Malvinder Ahuja for her consistent help during my research period.

My deepest gratitude and heartful thanks go to my beloved wife, Mrs. Mayuree Pongprot without whose struggling efforts and encouragements, I could not have been able to complete this work. I am also greatly indebted to my sister and Mr. Preeda for their assistance in the collection of data. Thanks are also due to Miss. Ariya Kuha for providing me all possible facilities and help for completing this work.

Besides, I am immensely thankful to administrators, teachers and students of different secondary schools of Educational Region - I in Thailand, who have helped me in the course of this study by providing valuable information and comments.
(ii)

Last but not the least I would like to thank, all the authors whose work I have consulted so frequently and quoted in my research work.

21st January 1994

(PEERAPAN PONGPROT)
