Acknowledgements | (i)
Table of contents | (iii)
Abstract | (vi)
I INTRODUCTION | 1-21
II PART A - HYPERFINE MAGNETIC FIELDS | 22-37
2.1 Origin | 22
2.1.1 The Orbital Hyperfine Field | 22
2.1.2 The Spin-Dipolar Hyperfine Field | 23
2.1.3 Fermi Contact Hyperfine Field | 24
2.2 Systematics of Impurity Hyperfine Fields | 26
2.2.1 Transition Impurities | 26
2.2.2 Rare-Earth Impurities | 27
2.2.3 sp Impurities | 27
2.3 Theories | 28
2.4 Temperature Dependence | 33
2.5 Pressure Dependence | 35
PART B - ELECTRIC FIELD GRADIENTS | 38-51
2.6 Origin | 39
2.7 Systematics of Electric Field Gradients | 41
2.7.1 Correlation between the Lattice and the Electronic Contribution. | 41
2.7.2 Temperature Dependence | 42
2.7.3 Pressure Dependence | 44
2.8 Theories | 46
References | 52
III  PART A - PERTURBED ANGULAR CORRELATIONS  

3.1 Unperturbed Angular Correlation of Nuclear Radiations.  59  
3.2 Perturbed Angular Correlations  61  
3.3 Experimental Methods  66  
  3.3.1 IPAC Technique  67  
  3.3.2 IPAC Technique  73  
  3.3.3 Pressure Derivatives  76  

PART B - INSTRUMENTATION  83-85  

3.4 PAC Setups at Ghandigarh  80  
  3.4.1 IPAC Setup  80  
  3.4.2 IPAC Setup  82  
3.5 PAC Setups at Uppsala  83  
  3.5.1 IPAC Setup  83  
  3.5.2 IPAC Setup  84  
References  86  

IV  MAGNETIC AND ELECTRIC HYPERFINE INTERACTION STUDIES  88-140  

PART A - HYPERFINE MAGNETIC FIELDS  89-116  

4.1 The Hyperfine Interaction Studies in the Heusler Alloys.  89  
  4.1.1 Introduction  89  
  4.1.2 Sample Preparation  92  
  4.1.3 Apparatus and Data Reduction  93  
  4.1.4 Results  95  
  4.1.5 Discussion  99
4.2 The Temperature Dependence of the Hyperfine Magnetic Field at Pd in Pd$_{.95}$Fe$_{.05}$

4.2.1 Introduction 103
4.2.2 Sample Preparation 104
4.2.3 Results and Discussion 105

4.3 The Hyperfine Magnetic Fields at Hf in Cobalt and Nickel

4.3.1 Introduction 108
4.3.2 Sample Preparation 109
4.3.3 Measurements and Results 110
4.3.4 Discussion 113

PART B - ELECTRIC FIELD GRADIENTS

4.4 Electric Quadrupole Interaction of Cd in Ho

4.4.1 Introduction 117
4.4.2 Experimental Details 118
4.4.3 Data Treatment 119
4.4.4 Results 121
4.4.5 Discussion 122

4.5 Electric Quadrupole Interaction between Oxygen and Ta Impurities in Palladium

4.5.1 Introduction 127
4.5.2 Sample Preparation 128
4.5.3 Experimental Method and Results 128
4.5.4 Discussion 131

4.6 Conclusion 133
