CONTENTS

List of publications 00
List of abbreviations 00

1. Introduction 00

2. Review of the literature 00
   2.1. Parthenium
   2.2. Crotalaria
   2.3. Rhizosphere mycoflora
   2.4. Vermicompost
   2.5. Leaf litter compost
   2.6. Mushroom cultivation

3. Topography and meteorological data of the region 00
   3.1. The Marathwada region
   3.2. The district Aurangabad
   3.3. The University Botanic garden
   3.4. Weather and crops

4. Information about weeds and crop plants 00
   4.1. Introduction
   4.2. Harmful effects of weeds
   4.3. Beneficial effects or uses of weeds
   4.4. Dominant weeds of the Marathwada region
   4.5. Some crops of the Marathwada region

5. Management of Parthenium in agriculture 00
   5.1. Introduction
   5.2. Materials and methods
   5.3. Analyses
   5.4. Results and discussion
   5.5. Conclusion
6. Growth response of maize to weed manures
   6.1. Introduction
   6.2. Materials and methods
   6.3. Analyses
   6.4. Results and discussion
   6.5. Conclusion

7. Rhizosphere mycoflora of maize
   7.1. Introduction
   7.2. Materials and methods
   7.3. Results and discussion
   7.4. Conclusion

8. Effect of weed vermicomposts on yield and nutrient uptake of maize
   8.1. Introduction
   8.2. Materials and methods
   8.3. Analyses
   8.4. Results and discussion
   8.5. Conclusion

9. Evaluation of leaf litter composts for the production of spinach
   9.1. Introduction
   9.2. Materials and methods
   9.3. Analyses
   9.4. Results and discussion
   9.5. Conclusion

10. Utilization of weeds for oyster mushroom cultivation
    10.1. Introduction
    10.2. Materials and methods
    10.3. Results and discussion
    10.4. Conclusion

11. Summary and conclusions

12. Bibliography
