The present study corresponds to the labour involved in the production of this peace of a research thesis, which is not without support, co-operation, helpful hands and well wishes, and also it cannot be imagined without their skillful intellectual guidance. The benedictions of the above Gems are intended not to loose them in the future course of time, and also so as to avoid 'labors' love's lost'. It will be a twilight and splendid contemplation to acknowledge all these bestowed benedictions.

At the very outset I cannot resist my informal deep sense of gratitude and obligation towards the loving intellectual guidance and benediction of my research guide Respected Dr. P. S. Ranade, who is always a stream of inspiration to me in this endeavor. His occasion of supervisorship to my research study proved to be secondary, and the consequence of this research provided me a guide, friend and philosopher in true sense as he acted for me while removing all my doubts, questions and confusions of the methodology. I am highly obliged and indebted to Dr. Ranade, for the entire research work without his cooperation; perhaps, this would have been remained only in contemplation.

I am also highly obliged to Respected Ex. Principal Shri K.G. Gandhi, and also Principal Shri S.G. Chapke, Dr. G.K. Nair, Dr. Varsha Sukhadeve, Prof. M.H. Bharsakale who co-operated me, and their suggestions always proved of worthy in the movements of research study.

I am thankful to Government of Maharashtra Education Department, who published eighteen volumes of unpublished writings of Dr. Ambedkar. Without the availability of these volumes the work would be a difficult task. Also various Libraries and their authorities and concerns: Dr. S.R. Baheti, Smt.L.R.T. College of Commerce Akola, Dr. Shalikram Ukey, S.P. Public Library Akola, Prof. Pradip Borkar and concern authorities of Dr. Punjbrao Deshmukh Krishi Vidyapeeth Akola, Samyak Sambodhi Wachnalaya Akola, Shri Deo Athavale, all of them assisted in the peculiar source material on the research study.
Also I am deeply obliged by the suggestions of Prof. M.R. Ingle, Shri Madhaorao Gawai and Shri B.P. Atulkar. I also cannot forget Dr. Ranjit Patil whose careful treatment helped me to restore health of my back and allowed me to pass the crucial period.

The job of typing the manuscript is also not without a vote of thanks. It bears the aspirations of brotherly co-operation. The vast job was a collective activity of Mr. Ratnakar Wankhade, Shri M. M. Wankhade, and Pramod Damodhar, Abhishek Taide, which was to be completed in a short period. Also the tedious job of proof checking was done with the assistance of Shri M.B.Bodade.

I cannot forget my respected Mother&father; Sau.Savitri & S.V.Pradhan, and my brothers, family members, my wife Sau. Shalini, who cared me throughout the research in day-to-day monotonous requirements and assistance, hence to be thankful to them is indispensable.
