3.1 Land Prices in Surveyed Villages (1953-54 to 1992-93) ........................................ 89
3.2 Data Used for Deflating Money Price of Land ......................................................... 92
3.3 Land Prices in Haryana (1953-54 to 1992-93) : Linear Regression Results .............. 101
3.4 Land Prices in Haryana (1953-54 to 1992-93) ....................................................... 102
3.5 Comparison of Trends in Land Prices between the Two Periods .......................... 108
3.6 Comparison of Growth in Land Prices between the Two Periods .......................... 109
3.7 Land Prices in Haryana (1953-54 to 1965-66) : Linear Regression Results .............. 111
3.8 Land Prices in Haryana (1953-54 to 1965-66) ....................................................... 112
3.9 Land Prices in Haryana (1966-67 to 1992-93) : Linear Regression Results .............. 114
3.10 Land Prices in Haryana (1966-67 to 1992-93) ..................................................... 115
3.11 Comparison of Growth in Land Prices between the Two Periods ........................ 118
4.1 Summary Statistics : Comparison of Variables Related to Caste, Occupational and Tenurial Status .................................................. 131
4.2 Significance of Difference in Means/Proportions: Regression Results .................... 132
4.3 Summary Statistics : Comparison of Variables Related to Economic Size ................. 143
4.4 Significance of Difference in Means/Proportions: Regression Results .................... 144
4.5 Summary Statistics: Comparison of Demographic Characteristics ........................ 152
4.6 Significance of Difference in Means/Proportions: Regression Results .................... 153
4.7 Summary Statistics : Comparison of Educational Endowment of Family Adult Male Members .................................................. 159
4.8 Significance of Difference in Means/Proportions: Regression Results .................... 160
4.9 Summary Statistics: Comparison of Modern Technology Adoption Related Variables .......... 167
4.10 Significance of Difference in Means/Proportions: Regression Results .................... 168
5.1 Linear Probability Regression Model: Multivariate Results – I
5.2 Linear Probability Regression Model: Multivariate Results –II
5.3 Linear Probability Regression Model: Multivariate Results – III
5.4 Linear Probability Regression Model: Multivariate Results – IV
5.5 Linear Probability Regression Model: Multivariate Results –V
5.6 Univariate Comparison of Characteristics Included in Previous Five Multivariate Comparison Models (Results reproduced from last chapter for ready reference)
5.7 Results of Use of Linear Probability Model (of Table 5.5) for Classification of Peasant Households as Land Buyers and Land Sellers
6.1 Land Buyers: Classification by Area Purchased
6.2 Land Sellers: Classification by Area Sold
6.3 Land Buyers: Classification by Area Owned At Birth
6.4 Land Sellers: Classification by Area Owned At Birth
6.5 Amount of Area Purchased by Sample Land Buying Households through Land Market: Multivariate and Univariate Regression Results
6.6 Amount of Area Sold by Sample Land Selling Households through Land Market: Multivariate and Univariate Regression Results
6.7 Area Purchased from Cultivating and Non-Cultivating Land Owners in Surveyed Villages
6.8 Land Buyers and Land Sellers: Classification by Area Owned At Birth
6.9 Net Change in Percent Area Owned At Birth via Land Market Transactions
6.10 Cumulated Distribution of Area Owned Among Sample Farm Households
