ACKNOWLEDGEMENT

I am extremely thankful first to the Almighty God for His Divine Grace throughout.

This work has been carried out under the sympathetic teachings and kind supervision of Dr. Balwant R. Kandoi, Professor of Economics (and ex-chairman/head), Department of Economics, Panjab University, Chandigarh. Indeed, the words are unable to express my inner feelings and sense of indebtedness to him for his devotion, affectionate encouragement and noble guidance provided to me during the course of this study. Without his able supervision the work might not have been completed as well as it is now.

I am grateful to Dr. S.L. Kansra, Professor and Chairman, Department of Economics, Panjab University, Chandigarh, for providing me research facilities wherever needed.

I am also thankful to Dr. Naveen Sharma and Dr. Debashish Acharya, Faculty members of the Department and Mrs. Savita for their valuable help in calculations. I would like to express my thanks to Miss B. Kafil Zadeh for her worthwhile help in computer works. I am thankful to staff members of Department of Economics, and the librarians of the Department and the University for their generous help anytime required.

I am deeply indebted to my parents who encouraged me to start and continue this work.

Sincere thanks to my beloved wife Mrs. S. Bafandeh and my dearest children Behrooz, Maryam, Behzad and Mohammad Amin who patiently suffered all the difficulties and gave me constant encouragement and support to carry out this research.

I am deeply indebted to Mr. B. S. Bhardwaj and his nice family members for providing every possible help to me during the performance of the work.

Finally I would like to express my thanks to all my friends and students who have contributed in some form in this research work.

Dated: 11 November, 2000
