This thesis is a culmination of extensive study, but not a solitary effort. There are number of people around who have provided me genuine support and encouragement.

I would like to thank my guide Dr. Nikhil Zaveri, Director and Principal, SEMCOM, VallabhVidyanagar, Anand. The spark, that I must do interdisciplinary research which is a blend of management, communication and technology, was initially ignited by him through scholarly discourse. His continuous support and insistence on quality and ambitious research has highly motivated me. Without his guidance, and personal interest I would not have been successful in completing my research work. I am truly obliged to him for realizing my true potential and paving me the way right to my career.

I would like to extend a very special thanks to Dr. Darshna Dave who happily guided me for preparing questionnaire and providing her scholarly suggestions. My heartfelt thanks are also due to Dr. Raju Rathod for his valuable advice, suggestions and motivation.

I am also thankful to my colleagues Dr. Subhash Joshi, Dr. Ajayraj Vyas, Dr. Rina Dave for their valuable suggestions and guidance.

Regards are also extended to the ever enthusiastic and dedicated entrepreneurs, managers and employees of all those companies I visited for my study. Their efforts and willingness to share their experiences and information enabled me to complete my research. They are the true supporter of this research work. I owe
sincere gratitude to my students Ronak Shah and Karim Halani for their benign help and Kalubhai for extending his valuable networking skill in contacting companies in GIDC.

I must offer my sincere appreciation and gratitude to my family for their patience and understanding during this learning process. Their encouragement and support motivated me towards completion of the thesis.
