ACKNOWLEDGEMENTS

Words are not enough to express my sincere feeling of gratitude and indebtedness towards my esteemed guide Dr. Ram Mehar, Assistant Professor in Education, University School of Open Learning, Panjab University, Chandigarh for his scholarly guidance, direction and encouragement during the process of study. His valuable suggestions, observations and co-operation enabled me to complete this project. It is an honour for me to have an opportunity to conduct a research under his supervision. I learned a lot in his company which extended me a helping hand for exploring the new fields of research. Thank you so much Sir, for showing understanding in completing this project.

I express my sincere thanks to Prof. Nandita, Chairperson, Department of Education, Panjab University for her whole hearted co-operation in providing me facilities needed for this academic pursuit.

I would be lacking in my earnest duty if I forget respected Dr. Harish Sharma, Professor (Retd.), Panjab University. His precious advice from time to time helped me in attaining my goal.

I gratefully acknowledge the valuable thoughts and work of many thinkers and my fellow researchers Satwant and Anuradha who were constant source of inspiration in completing the present investigation.

I owe much indebtedness to all principals, teachers and students who have all along cooperated with me during the collection of data for the study.

I wish to express my sincere thanks to Devi madam, Librarian, Department of Education and library staff of Panjab University, Chandigarh for providing me all the facilities in the library for the completion of my thesis.

My warm thanks are extended to Bhandari sir for all possible help rendered to me. I extend my sincere thanks to the staff of Department of Education, Panjab University for the cooperation and support extended to me.
I owe a never ending sense of respect, love and gratitude to my dear husband, Sanjay Singh without whose assistance this could never have been completed. This work would not have come to its present shape without his cheerful encouragement and ready cooperation throughout the whole research work. I am genuinely and deeply indebted to my children Snigdha and Shivansh for their understanding, endless patience and encouragement. They have lost a lot due to my research but provided a good environment to complete my writing up. Without their love and cooperation it would have been impossible for me to finish this work.

I am also thankful to my parents and in-laws for their elderly support. My father had been a constant source of inspiration and energy in this venture.

I am thankful to Almighty, without whose blessings, it would never have been possible to complete this study.

Lastly, I offer my regards and blessings to all of those who supported me in any respect during the completion of the project.
