ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my revered supervisor, Professor II. R. Chopra, Department of Library and Information Science, Panjab University, Chandigarh for his judicious guidance, sustained encouragement, valuable suggestions and constructive criticisms that has gone to the making of this doctoral research work. He has been a source of unfailing support and advice throughout the course of this study. To him I owe more than I can express.

I am also thankful to Dr. S.S.Pal, Chairman, Department of Library and Information Science, Panjab University, Chandigarh, for providing the required facilities for the completion of this study.

I express my deep sense of obligation to the librarians of various university libraries in Iran and also the library users who promptly responded to the questionnaires and interviews and for providing necessary information required for the present study.

Thanks are also due to the authorities of the Payam Noor University, Iran, and Ministry of Science, Research and Technology, Islamic Republic of Iran; and Science and Education Section, Embassy of the Islamic Republic of Iran, New Delhi, for having granted me the scholarship during the period of this study.

I recall with love and affections the ceaseless efforts of my wife and my both the daughters, who persuaded me to undertake this work and took keen interest in goading me to achieve success in the accomplishment of this work, at the cost of their comforts and pleasures. They stood by me with incredible patience throughout my research period and kept me away from the domestic problems.

I am also indebted to all the authors whose works I have consulted and cited in this work.
