ACKNOWLEDGEMENTS

In the execution of the work embodied in this thesis, I have drawn heavily upon the experience and knowledge of many. But still to acknowledge them all would be beyond any reasonable space limitation. At minimum, a few need to be singled out for special praise.

In form and concept, this work owes immensely to my teacher and guide, Dr. Daljeet Singh Toor, (Professor) Department of Physical Education, Panjab University, Chandigarh, a guide par excellence and a remarkable teacher, for his moral support and encouragement throughout my endeavor. He extended fully and unreservedly his knowledge and experience accumulated in a life devoted to sports. Words are poor tools to express my indebtedness to him.

I thank Dr. Dolly Deputy Director of Physical Education University Campus, Panjab University, Chandigarh, for her constant support and suggestions, which have paved the way to successfully complete this research task.

My sincere thanks are extended to Sh. J. P. Sharma (Chairman), Department of Physical Education, Panjab University, Chandigarh for providing opportunity to take up the study and submit the same for its approval.

I would have missed certain things, had I not consulted Retd. Dr. S. N. Sharma (Reader) Department of Physical Education, Panjab
My appreciation and sincere thanks are due to Sh. N. S. Mann, Mrs. Nirmaljit kaur Rathee from Department of Physical Education, Panjab University, Chandigarh for their altruism and wholehearted support as a catalyst in carrying out my research work. They critiqued the discussions and manuscript, which paved the way for many valuable suggestions.

For the assistance in statistical analysis, my special thanks are due to Sh. S. K. Mahindru Department of computer Science, Panjab University, Chandigarh. But for his guidance the study would not have been completed with such statistical precision.

I candidly acknowledge the help of Sh. B. C. Kaushal, Head of the Department of Volleyball, Netaji Subhash National Institute of Sports, Patiala, Punjab, who gave a sage counsel about the style and format of the presentation and helped to coalesce my thoughts.

I extend my thanks to the Librarians of Sports Authority of India (Bangalore, Patiala and Gandhinagar); INTERNET service; Panjab University Chandigarh, for having supported me in the literature collection.

I also thank the clerical staff and office bearers of the Physical education Department, Panjab University, Chandigarh to help me during this research work.
I owe more than I can put in words the inspiration, understanding and encouragement provided by my parents, brothers and sister especially during my turbulent days. Without their support I would not have completed this work. However, I only regret for not having completed the task before my father’s heavenly abode.

It is the traditional lot of researcher’s spouse to share their husband’s labor. But to the extent to my wife Mrs. Anita Yadav participated far exceeds the traditional mode. She smiled away the many little conflicts and permitted our home to be turned into a pile of scribbled papers! My daughter, Anjali and son, Sahil put up with all my not so good sense and humor, and bore all the discomforts with charm and poise. They strove to keep my spirits high. Indeed words are not at all a substitute to praise them for their behavior and tolerance.

Chandigarh
28 December, 2005
