ACKNOWLEDGEMENT

First of all I wish to record my deep sense of gratitude to my revered teacher Professor N.N. Mall, Dean, Lakshmibai National College of Physical Education, Gwalior, who was very kind to be my supervisor for this research project. It was a great privilege for me to seek his guidance.

I am at a loss to find appropriate words to express my indebtedness to Dr. B.S. Brar, Reader, Guru Nanak Dev University, Amritsar. His vast knowledge, mature guidance and the help he rendered were sources of my strength to complete this thesis.

Sincere gratitude is expressed to my friend Dr. A.S. Sohi of University of Ibadan, Nigeria, who inspired me for research. I am grateful for his constant encouragement, constructive criticism and valuable suggestions.

Appreciation is expressed to Mr. R.S. Brar of Government College, Chandigarh, and Mr. Jagtar Singh Gill of Punjab Engineering College, Chandigarh to whom I owe the credit to complete my work in time. I am extremely thankful for the help and co-operation I got from them. My thanks are also due to Mr. Gulshan Kumar, Lecturer, Computer Centre, Panjab University, Chandigarh, for his friendly help and co-operation for the computer work.
I am grateful to my friend, Mr. Reet Mahinder Singh, Deputy Director Sports, Panjab University, Chandigarh for his valuable suggestions. My colleagues Mr. Ramesh Kothari and Miss Pushpa deserve special appreciation for the cooperation and help they offered. I am very much indebted to them.

Thanks are due to the principals, physical education teachers and the students of all the colleges for their cooperation and help extended for the collection of data.

Last but not the least I appreciate the morale-boosting support extended to me by my beloved wife Jaswant and my sons Swarn and Peeti.

CHANDIGARH

( AJMER SINGH )
