Any accomplishment requires the effort of so many people and this work is no more different. Often words are too inadequate to serve as a mode of expression of one’s inner feelings, specially the sense of indebtedness and gratitude to all those who have helped in accomplishing the goals one has set before him.

It gives me an immense pleasure to express my deep sense of gratitude towards my respected, learned Supervisor, Dr. (Mrs.) Malvinder Ahuja, Reader, Department of Education, Panjab University, Chandigarh. Her professional competence, impeccable guidance, constant feedback, an ever-encouraging spirit and strong zeal at every stage of this investigation made this work memorable and successful.

I am indebted to Mrs. Surinder Kaur Tangri, Retd. Principal, Government College of Education, Sector 20-D, Chandigarh for her kind support in the completion of this work. I would like to thank Dr. (Ms.) Beantjit Kaur, Principal, Government College of Education, Sector 20-D, Chandigarh and Dr. (Mrs.) Harsh Batra, Director, State Institute of Education, Sector-32, Chandigarh for their encouragement to accomplish this research work.

I will fail in my duty if I do not thank all those whose works I used to provide for authenticity to my ideas, plans and the research report.

A special word of thanks to the Principals of Government Model Senior Secondary School, Sector-19; Government Model High School, Sector-28; Government Model Senior Secondary School, Sector-22 and Government Model Senior Secondary School, Sector-20, Chandigarh for permitting me to conduct the research work in their institutions. The support of teachers of these schools and the students was extremely valuable- many thanks to each one of them, without whom there would be less evidence to accomplish the present study.

Many busy people who added their valuable perspectives: experts, researchers, colleagues and other specialists in the field of teaching by refining my ideas and offering positive and constructive comments at various junctures provided an integrity to this research work. I am grateful for the support extended by the various Librarians and staff members of the A.C.Joshi Library and Department of Education of Panjab University and Government College of Education, Sector 20-D, Chandigarh.
At last I owe my sense of gratitude to the Almighty, my respected parents and loving brothers whose good wishes always inspired me to work enthusiastically in the field of life. I thank all, who contributed to this work anonymously.

MEENA
Lecturer in Economics
Government College of Education
Sector 20-D, Chandigarh.
