Read the sentences below. In each sentence there is a blank. Fill in the blank with a word that makes sense in the sentence, from the list of words given below. Write that word in your exercise book, along with the number of the sentence.

spends  stays  alone  held  asleep

6. The child _______ her mother's hand as they crossed the road.

7. Ahmed _______ every Sunday playing cricket.

8. He was tired, and fell _______ as soon as he lay down.

9. The rich man _______ in the best hotel when he goes to Delhi.

10. Sheela was _______ in the house because her mother had gone shopping.

Did you know that there is an animal which spends all its time hanging upside down, and most of its life asleep?
This animal is the sloth. The sloth is a mammal, that is, an animal which feeds on its mother's milk when young. It is found in the jungles of South America, and is one of the laziest animals alive! It eats and sleeps upside down, holding on to the branch of a tree with its toes. It moves from one place only when it has finished all the food nearby. Its enemies do not see it because it stays without moving for such a long time. Dangerous animals which might otherwise kill it leave it alone. As they go by beneath a tree, they do not notice the sloth which is hanging, unmoving, from one of the branches!

The word 'sloth' is now a part of the English language. To be 'slothful' is to be lazy, like the sloth.

---

What does the passage say?
