ACKNOWLEDGEMENTS

The author wishes to express and place on record the invaluable help bestowed by Prof. K.H. Channappa and for his guidance and encouragement at every step of this work.

The author desires to acknowledge the help extended by Prof. C. Raghavendra Rao, Chairman, Department of Physics, Bangalore University, for his constant encouragement during every stage of the work, without which this work would not have been completed in time.

I am deeply indebted to Prof. J. Ramakrishna, for his keen interest and constant encouragement during every stage of the work. The author wishes to place on record her sincere sense of gratitude to him for his help.

I express my sincere thanks Dr. K.P. Ramesh for his sustained interest and constant help throughout this work.

I express my deep sense of gratitude to Mr. S. Senthil Kumaran for his help in carrying out the experiments and for many useful discussions.

I thank Mr. Suresh for his help and encouragement. My sincere thanks are due to Mr. Rajendra Kumar for his help in preparing the thesis. I thank Mr. Ramanuja, Mrs. Geetha Ajoy, Mr. P.K. Babu, Mrs. Sai Sudha, Ms. Vidya, Mr. Kannan, Mr. K. Suresh, Dr. B.V.S. Murthy, and Dr. J. Viswanath for their cooperation.

I sincerely thank Dr. K. Rangaswamy and Dr. Murthy of Atomic mineral Division, Bangalore and Mr. Srinivasaiah, Chemist Geochemical Lab-
oratory, G.S.I. Bangalore., for carrying out the elemental analysis of the compounds used in this thesis work.

My thanks are due to Dr. P. T. Manoharan, Head, Regional Sophisticated Instruments Centre, IIT, Madras., for permission to carry out IR and Far IR studies.

The author would like to place on record her deep sense of gratitude and heartfelt thanks to Mrs. Hasnath Mansur, Principal, Abbas Khan college for permitting her to carry out the research work to the successful completion. The author expresses her deep sense of gratitude to the Management C.M.A. and the staff of Abbas Khan College for Women, Bangalore.
