

LIST OF TABLES

Table No	Title of Tables
1.1	Details of betelvine cultivating varieties (Cultivars) growing in India
1.2	Year wise betelvine cultivation areas and the production of betel leaves in the districts of Karnataka
2.1	Fungal diseases of betelvine (<i>Piper betle</i>)
3.1	Field survey on wilt incidences of betelvine in betelvine cropping areas in the different Agroclimatic regions of Karnataka during 2000 to 2001.
3.2	Meteorological data collected at Tarikere during the 2000 to 2004
3.3	Betelvine cropping areas in hectares growing in the taluks of Chikmagalur district
3.4	Disease incidence (PDI) for Betelvine wilt during pre monsoon and monsoon 2000 to 2002.
4.1	Efficacy of isolation techniques employed for the isolation of soil borne fungal pathogens of betelvine
4.2	Recovery of <i>Phytophthora parasitica</i> from diseased Plant samples
4.3	Recovery of <i>Pythium vexans</i> from diseased Plant samples
4.4	Recovery of <i>Fusarium oxysporum</i> from diseased Plant samples
4.5	Recovery of <i>Rhizoctonia solani</i> from diseased Plant samples
4.6	Recovery of <i>Sclerotium rolfsii</i> from diseased Plant samples
4.7	Colony growth rate of soil fungi in cm day ⁻¹ on different nutrient media
4.8	Colonization percentage of soil borne fungal isolates of betelvine on potato baits.
4.9	Yield loss due to soil borne fungal pathogens of betelvine
5.1	Effect of plant extracts on the mycelial growth of <i>Phytophthora parasitica</i>
5.2	Effect of plant extracts on the mycelial growth of <i>Pythium vexans</i>
5.3	Effect of plant extracts on the mycelial growth of <i>Fusarium oxysporum</i>

Contd ...

5.4	Effect of plant extracts on the mycelial growth of <i>Rhizoctonia solani</i>
5.5	Effect of plant extracts on the mycelial growth of <i>Sclerotium rolfsii</i>
5.6	Antagonistic activity of Trichoderma isolates on <i>Sclerotium rolfsii</i>
5.7	Inhibition percentage of Soil borne fungal pathogens of betelvine by <i>Trichoderma harzianum</i> in dual culture.
5.8	Growth of <i>Trichoderma harzianum</i> on different substrates
5.9	Shoot length of betelvine in centimeters due to <i>Trichoderma harzianum</i> amendment
5.10	Average shoot length of Betelvine in cm due to <i>Trichoderma harzianum</i> amendment
5.11	ANOVA for average shoot length of Betelvine in cm due to <i>Trichoderma harzianum</i>
5.12	Recovery of diseased plants due to <i>Trichoderma harzianum</i>
