Chapter-1. GENERAL INTRODUCTION : LICHENS	1-9
1.1. Lichen	1
1.2. Lichen Diversity and Distribution	2
1.3. Lichen Diversity in India	3
1.4. Lichen Diversity in Western Ghats	4
1.5. Ecological Importance of Lichen	4
1.6. Molecular Study on Lichens	5
1.7. Utilization and Ethnobotany of Lichens	6
1.8. Threats to Lichen Conservation	7
1.9. Relevance of the Present Study	7
1.10. Aims and Objectives	9
Chapter-2. INVENTERIZATION, COLLECTION AND IDENTIFICATION OF MACROLICHENS	10-42
2.1. Introduction	10
2.2. Review of Literature	10
2.3. Materials and Methods	19
2.3.1. <i>Study area</i>	19
2.3.2. <i>Climate</i>	23
2.3.3. <i>Surveying of Lichens</i>	25
2.3.4. <i>Collection of Lichens</i>	26
2.3.5. <i>Study of Lichen Morphology</i>	27
2.3.6. <i>Colour tests</i>	28
2.3.7. <i>Microcrystallography</i>	28
2.3.8. <i>Chromatography</i>	29
2.4. Results and Discussion	31
Chapter-3. DIVERSITY AND DISTRIBUTION PATTERN OF LICHENS	43-106
3.1. Introduction	43
3.2. Review of Literature	44

3.3.	Materials and Methods	51
3.3.1.	<i>Forest types</i>	51
3.3.2.	<i>Types of substrates</i>	51
3.3.3.	<i>Survey for lichens</i>	51
3.3.4.	<i>Statistical analysis</i>	52
3.3.5.	<i>Diversity indices</i>	53
3.4.	Results and Discussion	53
3.4.1.	<i>Algal partner</i>	71
3.4.2.	<i>Diversity indices</i>	73
3.4.3.	<i>Indicator species analysis</i>	99
Chapter-4.	LICHEN - HOST TREE SPECIFICITY	107-125
4.1.	Introduction	107
4.2.	Review of Literature	107
4.3.	Materials and Methods	110
4.3.1.	<i>Host tree identification</i>	110
4.3.2.	<i>Estimation of bark pH</i>	110
4.3.3.	<i>Bark texture</i>	111
4.3.4.	<i>Analysis of bark moisture</i>	111
4.4.	Results and Discussion	111
Chapter-5.	ETHNOBOTANICAL / TRADITIONAL USAGE OF LICHENS AND THREATS TO THE LICHEN COMMUNITY	126-139
5.1.	Introduction	126
5.1.1.	<i>Ethnobotanical / Traditional usage of Lichens</i>	126
5.1.2.	<i>Threats to Lichen Community</i>	128
5.2.	Review of Literature	129
5.3.	Materials Methods	132
5.3.1.	<i>Ethnobotanical Survey</i>	132
5.4.	Results and Discussion	133
5.4.1.	<i>Ethnobotanical survey</i>	133
5.4.2.	<i>Threats to the lichen community in the study area</i>	138

5.4.2.1. <i>Forest fire</i>	138
5.4.2.2. <i>Logging and growth of alien species</i>	138
5.4.2.3. <i>Collection of fuel wood</i>	139
5.4.2.4. <i>Illegal and over harvesting of lichens</i>	139
5.4.2.5. <i>Mining and encroachment of forest land</i>	139
Chapter-6. ANTIMICROBIAL STUDIES	140-164
6.1. Introduction	140
6.2. Review of Literature	142
6.3. Materials and Methods	152
6.3.1. <i>Selection of Lichen species for antimicrobial activity</i>	152
6.3.2. <i>Extraction of lichen sample using solvent</i>	152
6.3.3. <i>Preliminary screening for phytochemicals</i>	152
6.3.4. <i>Screening of solvent extracts for antibacterial activity</i>	154
6.3.5. <i>Screening of solvent extracts for antifungal assay</i>	155
6.3.6. <i>Determination of minimum inhibitory concentration (MIC)</i>	155
6.4. Results and Discussion	156
6.4.1. <i>Phytochemical studies</i>	156
6.4.2. <i>Antibacterial activity of six lichen species</i>	158
6.4.3. <i>Antifungal activity of six lichen species</i>	159
SUMMARY	165-168
CONCLUSION AND RECOMMENDATIONS	169-171
APPENDICES	172-180
REFERENCES	181-211
