

## **LIST OF TABLES**

---

		Page No.
Table 1.	Vegetation types of the Western Ghats	11
Table 2.	Total list of enumeration of lichens in Chikmagalur, Hassan and Shimoga districts in Central Western Ghats	32
Table 3.	Distribution of macrolichens in different forest types of Shimoga Chikmagalur and Hassan districts	54
Table 4.	Study sites of Shimoga with species richness	57
Table 5.	Study sites of Chikmagalur with species richness	58
Table 6.	Study sites of Hassan with species richness	59
Table 7.	Microhabitat preference of macrolichens in Shimoga district of the study area	60
Table 8.	Microhabitat preference of macrolichens in Chikmagalur district the of study area	64
Table 9.	Microhabitat preference of macrolichens in Hassan district of the study area	67
Table 10.	Association of some algal species in macrolichens identified in the Chikmagalur, Hassan and Shimoga districts	72
Table 11.	Lichen diversity in three study areas with their diversity indices	74
Table 12.	Macrolichens of Shimoga districts with their diversity indices	79
Table 13.	Macrolichens of Chikmagalur districts with their diversity indices	83
Table 14.	Macrolichens of Hassan districts with their diversity indices	87

---

---

Table 15.	Alpha-Diversity indices of the lichen species of Shimoga, Chikmagalur and Hassan districts	92
Table 16.	Beta-Diversity indices of the lichen species of Shimoga, Chikmagalur and Hassan districts	92
Table 17.	Spearman correlation between species of Shimoga, Chikmagalur and Hassan districts	92
Table 18.	Lichen species and their significance values in different study sites	100
Table 19.	Bark texture, moisture, pH and number of colonies on different host tree species in deciduous forests of Chikmagalur, Shimoga and Hassan districts	113
Table 20.	Lichen host tree species showing bark texture, moisture, pH and number of colonies in semi-evergreen forests of Shimoga, Chikmagalur and Hassan districts	115
Table 21.	Indicator host species analysis to understand tree-lichen specificity	120
Table 22.	Ethnobotanical uses of some lichens surveyed in central Western Ghats of Karnataka	135
Table 23.	Various phytochemicals detected in methanol extracts among six lichen species	157
Table 24.	Different lichen metabolites in six species of macrolichens in study area	157
Table 25.	Zone of inhibition of bacterial growth (in mm) by six macrolichen species against four bacterial species	160
Table 26.	Antifungal activity of six macrolichen species against four pathogenic fungi	161
