List of appendices

Appendix 1 Composition and preparation of reagents for micro-kjeldahl method
Appendix 2 Composition and preparation of reagents for phenol sulphuric acid method
Appendix 3 Composition and preparation of reagents for DNS method
Appendix 4 Composition and preparation of reagents for Lowry’s method
Appendix 5 Composition of media for screening cellulytic fungi
Appendix 6 Composition of Mandle’s media
Appendix 7 Composition and preparation of reagents for FPU assay
Appendix 8 Composition and preparation of reagents for CMCase assay
Appendix 9 Composition of media for xylanase production
Appendix 10 Composition and preparation of reagents for xylanase assay
Appendix 11 Composition of media for laccase production
Appendix 12 Preparation of reaction mixture for laccase assay
Appendix 13 Composition and preparation of reagents for PAGE
Appendix 14 Composition of YPD media
Appendix 15 Composition of media for SSF
Appendix 16 Composition and preparation of reagents for Spectrophotometric determination of ethanol
Appendix 17 Inoculum preparation of fungi for SSF in Fermenter
