Acknowledgements

I wish to express my sincere gratitude to my guide, Dr. B.B. Hosetti, Reader and Chairman, Dept of Applied Zoology, Kuvempu University, B.R. Project, Shimoga, for his willingness to take me as his student and suggesting the problem, and for his valuable guidance and constant encouragement throughout the period of investigation. I am indebted and thankful to him without whose scholarly guidance it would not have been possible to complete this work.

I would like to record my deep sense of gratitude to my teachers Prof. V. Vasudeva, Dr. M. Venkateshwarlu and Dr. Nagaraj Dept of Applied Zoology, Kuvempu University, B.R. Project for their support and encouragement during of this investigation.

My profound thanks to non-teaching staff of Department of Applied Zoology and Miss. Sudha, S.G.S. Computers, Shankaraghatta for neat compilation of the thesis.

I also thank to authorities of Sewage treatment plant, Shimoga City, Shimoga, for permitting me to carryout the studies on their waste stabilization pond system

I also express my sincere thanks to Prof. Shankara P. Hosamani, Dept of Botany, Mysore University, Mysore and Dr. S. M. Haddad, Dept of Microbiology, Gulbarga University Gulbarga, for their timely help rendered during the need.

I also remember the co-operation extended by my research colleagues Dr. Mangala Veeresh, Ujjwal, Naveed, K.L. Nayak, Dayananda, Dhanajaya, Krishanappa, Sampath Kumar and Gurushankara.

This work would not have seen the light of the day had it not been for the patience, forbearance, constant, encouragement and support of my father Sri M.K. Mallikarjunaiah, my mother Smt. Dakshayanamma and my special heartfelt thanks to my motivator, constant inspirer Dr. Sridhar S., Prof. Kumarswamy and sister Miss. Anitha, and my brother Basavaraj for their kind help and support to do my work successfully.

(Santhala, M.)
