ACKNOWLEDGEMENT

At the outset, I offer my salutations at the feet of Lord Almighty who kindly imbued the energy and enthusiasm through ramifying paths of thick and thin of my efforts at the later part of my service in the University of Agricultural Sciences, Bangalore as the Associate Professor of Plant Pathology.

It is indeed an immense pleasure to express my deep sense of gratitude and indebtedness to a dynamic and dedicated guide Dr. Y.L. Krishnamurthy, Lecturer (Senior Scale), Department of P.G. Studies and Research in Applied Botany, Kuvempu University for his valuable suggestions of problem, invaluable guidance, encouragement and constant advise throughout the period of this investigation and sustained interest and kind help in compilation, critical review of my manuscript and refinement of thesis even with his restless work.

I am also owe enormous heartfelt and very sincere debt of gratitude and gratefulness to kind hearted Dr. M. Krishnappa, Professor & Chairman, Department of P.G. Studies and Research in Applied Botany, Kuvempu University for having given me the opportunity for getting admission to Doctoral Degree Programme in the esteemed University and ever lasting encouragement during the course of study with invaluable suggestions and support which is ever memorable. I also appreciate his vision, guidance and leadership quality.

I am very much thankful to Dr. M. Shivanna and Dr. S.R. Krishnamurthy, Readers, Dr. Raja Nayak, Senior Lecturer, Dr. Somashekar G. Malammanavar, Lecturer, who have supported and helped me with love and affection during my studies in the Department of Applied Botany, Kuvempu University.

I express my sincere thanks to all the responsible and active staff members, glittering P.G. students and Research Scholars for their kind cooperation during the period of my research studies in the University.
I am profusely indebted to the esteemed Kuvempu University Vice-Chancellor, Registrar, Registrar (Evaluation), Academic Unit and their sincere and dedicated staff members for having showed love and affection towards completing my doctorate degree programme.

I am highly grateful to Mr. M.C. Dinesh and Ms. M.C. Sudha, S.G.S. Computers, who have taken much pain continuously with dedication to process my thesis in all aspects of typing, printing work etc., excellently. I wish them to grow better in their life for their hard work. Similarly, I am thankful to M/s. Padmashree Colour Lab, Shimoga, who have printed the photos for my thesis and also M/s Ganga Binding Works, Shankaraghatta who has binded thesis nicely.

I once again bow my head to this great and beautiful University for the opportunity given to me in this regard.

I gratefully acknowledge the Vice-Chancellor, Director of Research and the Administrative Officer, University of Agricultural Sciences, GKVK, Bangalore for having permitted me to undergo Doctoral Degree programme in Applied Botany, Kuvempu University on the topic of “Management of Foot Rot Disease in Black Pepper in Malnad Regions of Karnataka”.

My sincere salutations are due to Late Dr. K.G. Ranganathaiah, Professor of Plant Pathology, who was first inspired; Dr. K.P.R. Prasanna, Professor & University Head, Department of Seed Science and Technology; Dr. T.B. Anil Kumar, Dr. K. Krishnappa and Dr. A.N.A. Khan, Professors in the Department of Plant Pathology, UAS, Bangalore, who are the stimulants for me to complete the Doctoral degree programme.

I express my very sincere thanks to Dr. N. Nagaraja, Ex Associate Director of Research, Zonal Agricultural Research Station, Mudigere who has forwarded my application with excellent remarks to get permission from UAS, Bangalore to undertake Doctoral degree programme in Kuvempu University.
My sincere and affectionate thank to Mr. Samiulla, Typist, AICRP On Spices, ZARS, Mudigere, Mr. S.B. Goudar, Training Associate (Plant pathology) K.V.K. Mudigere who have helped me in typing of my thesis manuscript during my stay at Mudigere.

I am very much grateful and heartfelt thanks to Dr. Prabhanjan, Associate Professor (Agril.Engg), Dr. P. Sridhara Herle, Associate Professor (Stat), Smt. H. Sujatha and Smt. Gunavathi, ZARS, Brahmavara; Dr. M.K. Honnabyraiah, Training Organizer, Dr. B. Shivanna, Smt. L. Bhagirathi, Dr. Shashidhar, Scientists and Mr. Shettigar, Senior Assistant, KVK, Brahmavara, who have whole heartedly helped and encouraged by way of supporting and providing all facilities to complete my thesis work. Without which it could not have been possible to complete the work and this help is unforgettable for ever.

My sincere thanks to Dr. Vasantha Kumar, Director of Horticulture, Karnataka, who has supplied information on black pepper through his Deputy Directors of Horticulture of Chikmagalur, Hassan and Kodagu districts and inturn their taluka Senior Assistants Directors of Horticulture and their field staff of Mudigere, Chikmagalur, Belur, Sakleshpur, Madikeri and Somvarpet who have constantly cooperated in selecting the locations for foot rot disease survey and collection of information during my visit frequently.

I am very much grateful to Dr. K.V. Ramana, Ex Project Co-ordinator (Spices) and the present Assistant Director General (Plantation Crops), ICAR, New Delhi and Dr. M. Anand Raj, Project Co-ordinator (Spices) and Crop Protection Head and Dr. Parthasarathi, Director and Dr. Kuroop, Senior Professor of Statistics, Indian Institute of Spices Research, Calicut, Kerala; Dr. M.N. Venugopal, Senior Pathologist & Head and Dr. Ankegowda, Plant Physiologist & Farm Superintendent, National Research Centre for Spices, Appangala, Madikeri and Dr. Sudarshan, Senior Scientist & Head, Indian Cardamom Research Institute, Sakleshpur, who have supported me by way of supplying materials for my research studies.
I am also thankful to Director, Areca nut & Spices Development Board, Ministry of Agriculture, Government of India, Calicut, Kerala; Dr. Abraham, Professor & Head, Department of Plant Pathology, Kerala Agricultural University, Thrissur, Dr. Kurucheve, Professor & Head, Department of Plant Pathology, Annamalai University, Chidambaram, Tamil Nadu, Dr. Srikanth Kulkarni, Professor & Head, Department of Plant Pathology, UAS, Dharwad, Dr. S. Niranjan, Dr. H. Shekar Shetty, Dr. Prakash, Professors, Department of Applied Botany, Mysore University, Mysore; Dr. A.H. Raja Saab, Professor & Head, Department of Applied Botony, Gulbarga University, Gulbarga and the eminent Mycologist Dr. C. Manoharachari, Senior Professor & Head, Department of Botany, Osmania University, Hyderabad, who have inspired and graced me to complete this Doctoral degree programme.

Last but not the least, I profusely indebted to my beloved wife and my all nearest and dearest relatives and friends at ZARS, Brahmavar and Mudigere for their excellent encouragement and support in completing my Doctoral degree programme.

(LARASUMALLAIAH)
