</table>
2.6. Aerial phase
2.7. Soil phase
2.8. Disease spread
2.9. Integrated Disease Management (IDM)
   2.9.1. Cultural methods
   2.9.2. Chemical methods
   2.9.3. Biological control
   2.9.4. Compatibility of chemicals and biological methods
   2.9.5. Effect of host nutrition in relation to disease incidence
   2.9.6. Host resistance

Chapter 3. MATERIALS AND METHODS

3.1. Survey to locate hot spots for foot rot disease in black pepper
3.2. Estimation of actual yield loss due to foot rot disease in surveyed areas
3.3. Epidemiological studies
3.4. Integrated management of foot rot disease in black pepper
   3.4.1. Application of neem oil cake
   3.4.2. Application of panchagavya
   3.4.3. Application of bio-control agents
   3.4.4. Application of fungicides
3.5. Field Observations on integrated management of foot rot
   3.5.1. Observations on foliar infections
   3.5.2. Recording of yield parameters in the management of foot rot
3.6. Observational trial on the integrated management of *Phytophthora* foot rot disease of pepper in farmers field
3.6.1. Recording observation in observational trial
3.6.2. Estimation of avoidable yield loss due to foot rot disease
3.6.3. Statistical analysis

Chapter 4. RESULTS AND DISCUSSION

4.1. Symptomatology
4.2. Survey to locate hot spot areas for foot rot disease
4.3. Estimation of crop loss
4.4. Epidemiological studies
   4.4.1. Effect of weather factors on the development of foot rot of black pepper
4.5. Integrated management of foot rot disease of black pepper
   4.5.1. Field trial 2003-04
      4.5.1.1. Disease incidence
      4.5.1.2. Yield parameters
      4.5.1.3. No. of spikes
      4.5.1.4. Spike length
      4.5.1.5. Spike weight
      4.5.1.6. Berry weight and volume
      4.5.1.7. Dry weight
   4.5.2. Field trial 2004-05
      4.5.2.1. Disease incidence
      4.5.2.2. Yield parameters
      4.5.2.3. No. of spikes
4.5.2.4. Spike length
4.5.2.5. Spike weight
4.5.2.6. Berry weight and volume
4.5.2.7. Dry berry weight

4.6. Observational trial on integrated management of phytophthora foot rot of black pepper (2004)

4.6.1. Disease incidence
4.6.2. Yield parameters
4.6.3. No. of spikes
4.6.4. Spike length
4.6.5. Spike weight
4.6.6. Berry weight and volume
4.6.7. Dry berry yield
4.6.8 Estimation of avoidable yield loss in the management field

Chapter 5. SUMMARY AND CONCLUSION 136-143

5.1. Summary
5.2. Conclusion and Recommendations for further studies
