List of Figures.

Figures of Chapter I

Figure 1. Promising cancer chemo-preventive agents.

Figure 2. Plant-Derived Anti-Cancer Agents in Clinical Use

Figure 3. Plant-Derived Anticancer Agents in Clinical Development.

Figure 4. Plant-Derived Antitumor Agents in Preclinical Development.

Figure 5. *T. involucrata* plant.

Figure 6. The distribution of *T. involucrata* in India

Figures of Chapter II

Figure 1a-c. TLC of hexane extract of *T. involucrata*.

Figure 2. TLC of Ethyl acetate extract.

Figure 3. IR Spectrum of Terpenoid.

Figure 4. UV-VIS Spectrum of Terpenoid.

Figure 5a-c. $^{13}$C NMR of Terpenoid.

Figure 6a-b. $^1$H NMR of Terpenoid.

Figure 7. LC chromatogram and Mass spectrum of Terpenoid

Figure 8. Schematic diagram of the isolation of sterol and triterpene from *T. involucrata*

Figure 9. IR Spectrum of 5-(3-hydroxy-propyl)-benzene-1, 2,3-triol.

Figure 10. UV-Vis Spectrum of 5-(3-hydroxy-propyl)-benzene-1, 2,3-triol

Figure 11a-b. $^{13}$C NMR of 5-(3-hydroxy-propyl)-benzene-1, 2,3-triol.

Figure 12a-c. $^1$H NMR of 5-(3-hydroxy-propyl)-benzene-1, 2,3-triol.

Figure 13a-c. LC chromatogram and Mass spectrum of 5-(3-hydroxy-propyl)-benzene-1, 2,3-triol.

Figure 14. Structure of 5-(3-hydroxy-propyl)-benzene-1, 2, 3-triol
Figure 15. Flow chart of the isolation of Flavonoids from the aerial parts of the *T. involucrate*

Figures of Chapter III

Figure 1. Chart of OECD/OCDE Guidelines 420

Figure 2. Measurement of Solid tumor volume by calipers.

Figure 3a-b. Antitumour activity of HPBT.

Figure 4a-b. Antitumour activity of Terpenoid.

Figures of Chapter IV

Figure 1. Metaphase chromosome preparation from bone marrow cells.

Figure 2. Micronucleated MPCEs and MNCEs form bone marrow cells.

Figure 3. Sperm shape abnormalities.
