List of Tables.

Tables of Chapter I

Table.1. Plant drugs used in traditional medicine which led to useful modern drugs.

Table. 2. Estimated New Cancer Cases and Deaths by Sex, US, 2009.

Table .3. Vernacular names of T. involucrata

Tables of Chapter II

Table.1. Different Solvents used for the optimization of TLC solvent system for the hexane extract.

Table.2. Column chromatography of steroids and triterpenes.

Table. 3. Different Solvents used for the optimization of TLC solvent system for the ethyl acetate extract.

Table.4. Percentage yield and Physical characters of T. involucrata extracts in different solvents.

Table.5. Phytochemical analysis of successive extracts of aerial parts of T. involucrata

Table. 6. TLC studies of Hexane extract.

Table .7. Results of column chromatography in TLC.

Table. 8. Physical properties of sterol and terpenoid.

Table. 9. Chemical analysis of sterols and triterpene.

Table.10. TLC studies of ethyl acetate extract.

Table.11. Physical properties of flavonoid.

Table.12. Chemical tests for flavonoids.

Tables of Chapter III

Table.1. In vitro cytotoxicity of different extracts of T.involucrata.

Table.2. Effect of HPBT on hematological and serum biochemical parameters in mice
Table 3a-b. Antitumour activity of *T. involucrata* HPBT and HE given ip against the sc implanted EAC.

Table 4a-b. *In vitro* and *In vivo* antioxidant activity of HPBT.

Tables of Chapter IV

Table 1. Percentage of chromosomal aberrations induced by HPBT and controls at different time intervals.

Table 2. Percent frequency of bone marrow MN induced by HPBT and controls at different time intervals.

Table 3. Frequency of abnormal sperms induced by HPBT and controls at 5 weeks.

Table 4. Effect of HPBT and controls on body weight, testes weight and epididymal sperm count after five weeks.

Tables of Chapter V

Table 1. Anti-implantation activity of HPBT and terpenoid.

Table 2. Estrogenic and anti-estrogenic activity of HPBT and terpenoid.

Table 3. Histological changes in the uterus and endometrium after treatment with the HPBT and terpenoid.

Table 5a. Effect of HPBT and terpenoid on carrageenan-induced rat paw oedema.

Table 4a. Effect of HPBT and terpenoid on acetic acid induced abdominal constrictions in mice.
