Acknowledgements.....

Words in my lexicon fail to express my profound sense of veneration and indebtedness to my mentor Professor K.K. Bhasin, Department of Chemistry, Panjab University, Chandigarh for his inspiring guidance, outstanding cooperation and constant encouragement during the entire course of study. His constant support, critical appreciation and parental concern gave a glitter of confidence to my work. His intense hard work and countless efforts to provide every possible facility in the lab made this strenuous task achievable.

I owe my sincere thanks to my Co-supervisor, Professor S.K. Mehta, Department of Chemistry, Panjab University, Chandigarh, for his critical evaluation along with prolific ideas and time to time suggestions that helped me in the successful execution of my work.

My sincere thanks are humbly submitted to the Chairman, Department of Chemistry, Panjab University, Chandigarh, for providing all the necessary facilities to carry out the research. Financial assistance from C.S.I.R. is gratefully acknowledged.

Thanks to all faculty members and staff of Department of Chemistry, Panjab University, Chandigarh, for their co-operation and support.

I feel immensely happy to acknowledge my labmates, Rajeev sir, Yogesh, Shivani, Nishima and Gurjeet mam for their scholarly discussions in the lab. I am greatly indebted for their precise instructions for arranging the things and carrying out the experiment in a very efficient way. My heartfelt thanks for their emotional attachments, encouragement and help during the critical period of my work.

With a debt of gratitude which cannot be adequately expressed in words, I thank my loving friends Kriflu and Gurpreet. Their unconditional love and support helped me to complete this arduous task. My boundless thanks are extended to both of them for the love and concern they showed to me.

I am very much thankful to my seniors Ganga Ram sir and Shweta mam whose help was always there when needed.

Vocabulary finds no appropriateness to express my heartfelt love and thanks from the very core of my heart to Bhawna, Khushwinder, Savita, Sanjay, Neha, Ramesh, Sakshi, Khushbu, Priya, Kulwinder and Shafi for their unconditional support, friendship, encouraging attitude that inspired and helped me to achieve my goal. I am equally thankful to my loving lab juniors Manisha, Ruchika, Promila, Puneet and Harjeet.

Above all, I am indebted to my family for immutable source of inspiration and strength to undertake this doctoral study and successful completion of the same. I am proud to have them and there are no words but only feelings to honorably pay my regards to them for their ceaseless perspiration, encouragement, moral support, instilling the research attitude from childhood, unlimited love and affection.

My due regards and thanks to my in-laws family especially my Father-in-law and Sister-in-law for their cooperation and affection during their final stages of my work. This work would have been a futile endeavor without their support.

Also I would like to convey my feelings and gratitude to my affectionate Sister and Jeeju. I would never have thought of completing this project without their support. Showers of good wishes for my ‘Cinderella’, my niece, ‘Nanza’ too.
I also owe my wonderful present and dream filled future to my Husband, Kapil for standing beside me all the time. His consistent cooperation and the encouraging dialogue, "Chinta mat kar" was one of the driving force to accomplish this work.

Last but not the least, my humble and absolute obeisance to Almighty GOD for his abundant grace, mercy and blessings showered upon me. Thank GOD.

Ekta
