ACKNOWLEDGEMENTS

I gratefully acknowledge my indebtedness to Dr. (Mrs.) Pratibha Deo, under whose inspiring guidance I had the privilege of conducting the present study. Her painstaking efforts in improving the quality of the work at all stages have been of inestimable value.

My thanks are due to Prof. V.R. Taneja, Head, Department of Education, Panjab University, for encouraging me, showing active interest in the work and rendering all possible help as and when needed. I am exceedingly grateful to Padma Bhushan Shri Suraj Bhan, Vice-Chancellor, Panjab University, Chandigarh, for granting me financial assistance to execute the investigation. I am beholden to express my gratitudes to Dr. J.N. Joshi who happens to be one of the most important persons in my personal and professional life. Without his help, this work could never be completed. I pray that my words may convey what I really mean.

I am equally grateful to the subjects and the Heads of various institutions who readily rendered all help and cooperation in the data collection.
I am also thankful to all my friends and colleagues who contributed in many ways to motivate me to accelerate the pace of research work.

Lastly, I wish to express my appreciation to the many authors whose works I have consulted very often and quoted in my research project.

(B. K. PASSI)
