ACKNOWLEDGEMENTS

It gives me immense pleasure to record my heartfelt gratitude to Dr. K.S. Thind, F.N.A., Senior Professor and former Head of the Department of Botany, Panjab University, Chandigarh, for his valuable suggestions, constructive criticism, thought provoking discussions during the course of present academic pursuits, and critical screening of manuscript of my thesis.

I am thankful to Dr. S.S.K. Sharma, Professor and Chairman, Department of Botany, Panjab University, Chandigarh, for providing me the necessary facilities. Thanks are also due to the Department of Science and Technology (DST), Government of India, for providing the financial assistance under the DST Project entitled, "Mycoflora of the eastern Himalayas".

I am deeply indebted to Professor Leif Ryvarden, Universitetet I OSLO, Botanisk Laboratorium, 1045, Blindren, OSLO-3, Norway and Dr. E. Parmasto, Institute of Zoology and Botany, 21 Vaemuise St., Tartu Estonian SSR, U.S.S.R. the stalwarts in the study of polyporoids for their critical comments, valuable suggestions and help in the identification of certain problematic taxa and for readily making available to me the reprints of their valuable publications.

My sincere thanks are also due to Dr. R.L.Gilbertson, Department of Plant Pathology, University of Arizona, Tucson, A-85721, U.S.A.; Dr. J.H. Ginns, Mycologist, Plant Research Institute, Central Experimental Farm, Ottawa, Ontario, Canada; Dr. J. Rammeloo, Head Mycology Section, Nationale Plantantuin, B-1860 Meise, Belgium; Dr. J.W. Wright, Departamento de Ciencias Biologicas, facultad de Ciencias Exactas Naturales, 11 Pabellou, 4-Piso Cuidad Universitaria, Buenos Aires, Argentina; Dr. G.J. Rodngver, Escuelo Nacional de Ciencias Biologicas, Laboratorio de Mycologia, Apdo. Postal 47-017, Mexico D.F. 07800 Mexico and Irenia Melo, Museu, Laboratorio e Jardim Botanico Universidad de Lisboa, Portugal for sending me reprints of their valuable publications.
I am grateful to Dr. S.C. Kaushal for his constant encouragement and help in various ways throughout the progress of this work.

I am sincerely obliged to my fellow colleagues M/s Rishi Kaushal, Gurpal Singh Dhingra, Brij Mohen Sharda, Ram Murti Sharda, Raghunandan Sharma and Rajesh Sharma for maintaining team spirit and healthy academic atmosphere both during the collecting trips and in the laboratory. Their association and co-operation shall be remembered for many years to come.

I shall be failing in my duty if I donot thank my friends who really cared for my welfare and were eveready to render me all help.

Lastly, I cannot close without expressing my deep sense of gratitude to my parents, brother and Bhabiji for their patience, co-operation and encouragement shown throughout the course of these investigations. To my niece, Ekroop, for entertaining me with her sweet company during the compilation of this work.
