1 Introduction 1

2 On extensions generated by roots of lifting polynomials 11
   2.1 Motivation of the problem and statements of the results 11
   2.2 Definitions, notations and some known results 14
   2.3 A preliminary result 21
   2.4 Proof of Theorem 2.1.1 23
   2.5 Proof of Theorem 2.1.2 and Corollary 2.1.3 26

3 Difference polynomials and their generalizations 29
   3.1 History of the problem and statements of the main results 29
   3.2 Proof of a generalization of Eisenstein’s Irreducibility Criterion 32
   3.3 Proof of Theorem 3.1.1 33
   3.4 Proof of Theorem 3.1.2 35
   3.5 Proof of Theorem 3.1.3 and some examples 37

4 A characterization of Krasner’s constant 41
   4.1 Statements of main results 41
   4.2 Some preliminary results 43
   4.3 Reduction of the problem 49
   4.4 Proof of Theorem 4.3.1 53
   4.5 Proof of Theorem 4.3.2 55
5 On limits of sequences of elements algebraic over a complete field 61

5.1 Origin of the problem ...................................................... 61
5.2 Definitions, notations and statements of the main results .......... 62
5.3 Proof of Theorem 5.2.1 .................................................... 64
5.4 Some examples and preliminary results .............................. 68
5.5 A characterization of transcendental elements of $\overline{K^c}$ .... 76
5.6 Proof of Corollary 5.2.3 ................................................... 81
