LIST OF TABLES

Table 5.1: Sex-wise distribution of Initial Sample at different age levels. 142
Table 5.2: Sex-wise distribution of the Final Sample at different age levels. 144
Table 5.3: Description of Sample with regard to SES, IQ and RA. 146
Table 5.4: Analysis of Variance for IQ scores of the Five Groups on the basis of Pre-test-scores. 148
Table 5.5: Analysis of Variance among the scores of Word Reading test of the Five Groups on the basis of Pre-test scores. 149
Table 6.1: Mean differentials between Pre- and Post-test scores with regard to Oral Reading of different EGs (LG_I). 153
Table 6.2: Mean differentials between Pre- and Post-test scores with regard to Oral Reading of different EGs (UG_I). 155
Table 6.3: Mean differentials between Pre-and Post-test scores with regard to Oral Reading of different EGs (LG_{II}). 158
Table 6.4: Mean differentials between Pre- and Post-test scores with regard to Oral Reading of different EGs (UG_{II}). 160
Table 6.5: Mean differentials between Pre- and Post-test scores with regard to Oral Reading of different EGs (LG_{III}). 163
Table 6.6: Mean differentials between Pre- and Post-test scores with regard to Oral Reading of different EGs (UG_{III}). 165
Table 6.7: Mean differentials between Pre- and Post-test scores with regard to Oral Reading of different EGs (Total scores of all grades). 168
Table 6.8: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (primary).

Table 6.9: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (LG_I).

Table 6.10: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (UG_I).

Table 6.11: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (LG_{II}).

Table 6.12: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (UG_{II}).

Table 6.13: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (LG_{III}).

Table 6.14: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (UG_{III}).

Table 6.15: Mean differentials between Pre- and Post-test scores with regard to Comprehension of different EGs (Total scores of all grades).

Table 6.16: Mean differentials between Pre- and Post-test scores with regard to Word Reading of different EGs.

Table 6.17: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (LG_I).

Table 6.18: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (UG_I).

Table 6.19: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (LG_{II}).
Table 6.20: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (UG_{II}).

Table 6.21: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (LG_{III}).

Table 6.22: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (UG_{rj}).

Table 6.23: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (UG_{rjj}).

Table 6.24: Mean differentials between Post-test scores of different EGs and CG with regard to Oral Reading (Total score of all grades).

Table 6.25: Mean differentials between Post-test scores of different EGs and CG with regard to Comprehension (primary).

Table 6.26: Mean differentials between Post-test scores of different EGs and CG with regard to Comprehension (LG_{I}).

Table 6.27: Mean differentials between Post-test scores of different EGs and CG with regard to Comprehension (LG_{II}).

Table 6.28: Mean differentials between Post-test scores of different EGs and CG with regard to Comprehension (UG_{I}).

Table 6.29: Mean differentials between Post-test scores of different EGs and CG with regard to Comprehension (LG_{III}).

Table 6.30: Mean differentials between Post-test scores of different EGs and CG with regard to Comprehension (UG_{III}).

Table 6.31: Mean differentials between Post-test scores of different EGs and CG with regard to Comprehension (Total scores of all grades).
Table 6.32: Mean differentials between Post-test scores of different EGs and CG with regard to Word Reading.

Table 7.1: Summary of Analysis of Variance for Oral Reading scores of the Four Treatment groups at LGj on the basis of differences between Pre- and Post-test scores.

Table 7.2: Mean differentials among Post-test scores of different EGs with regard to Oral Reading (LGj).

Table 7.3: Summary of Analysis of Variance for Oral Reading scores of the Four Treatment groups at UGj on the basis of differences between Pre-and Post-test scores.

Table 7.4: Mean differentials among Post-test scores of different EGs with regard to Oral Reading (UGj).

Table 7.5: Summary of Analysis of Variance for Oral Reading scores of the four treatment groups at LGjj on the basis of difference between Pre-and Post-test scores.

Table 7.6: Mean differentials among Post-test scores of different EGs with regard to Oral Reading (LGjj).

Table 7.7: Summary of Analysis of Variance for Oral Reading scores of the Four treatment groups at UGjj on the basis of differences between Pre-and Post-test scores.

Table 7.8: Mean differentials among Post-test scores of different EGs with regard to Oral Reading (UGjj).

Table 7.9: Summary of Analysis of Variance for Oral Reading scores of the Four Treatment groups at LGjij on the basis of differences between Pre-and Post-test scores.
Table 7.10: Mean differentials among Post-test scores of different EGs with regard to Oral Reading (LG_{III}).

Table 7.11: Summary of Analysis of Variance for Oral Reading scores of the Four Treatment groups at UG_{III} on the basis of differences between Pre-and Post-test scores.

Table 7.12: Mean differentials among Post-test scores of different EGs with regard to Oral Reading (UG_{III}).

Table 7.13: Summary of Analysis of Variance for Oral Reading scores of the Four Treatment groups at UG_{III} on the basis of differences between Pre-and Post-test scores.

Table 7.14: Mean differentials among Post-test scores of different EGs with regard to Oral Reading (Total scores of all grades).

Table 7.15: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups of primary level on the basis of differences between Pre-and Post-test scores.

Table 7.16: Mean differentials among Post-test scores of different EGs with regard to Comprehension (primary).

Table 7.17: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups of LG_{I} on the basis of differences between Pre-and Post-test scores.

Table 7.18: Mean differentials among Post-test scores of different EGs with regard to Comprehension (LG_{I}).

Table 7.19: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups of UG_{I} on the basis of differences between Pre-and Post-test scores.
Table 7.20: Mean differentials among Post-test scores of different EGs with regard to Comprehension (UG_I).

Table 7.21: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups of LG_II on the basis of differences between Pre-and Post-test scores.

Table 7.22: Mean differentials among Post-test scores of different EGs with regard to Comprehension (LG_II).

Table 7.23: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups of UG_II on the basis of differences between Pre-and Post-test scores.

Table 7.24: Mean differentials among Post-test scores of different EGs with regard to Comprehension (UG_II).

Table 7.25: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups of LG_III on the basis of differences between Pre-and Post-test scores.

Table 7.26: Mean differentials among Post-test scores of different EGs with regard to Comprehension (LG_III).

Table 7.27: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups of UG_III on the basis of differences between Pre-and Post-test scores.

Table 7.28: Mean differentials among Post-test scores of different EGs with regard to Comprehension (UG_III).

Table 7.29: Summary of Analysis of Variance for Comprehension scores of the Four Treatment groups (Total scores) on the basis of differences between Pre-and Post-test scores.
Table 7.30: Mean differentials among Post-test scores of different EGs with regard to Comprehension of all EGs (Total scores of all grades).

Table 8.1.1: Mean differentials between Pre-and Post-test scores with regard to Visual Discrimination (VD) of different EGs.

Table 8.1.2: Mean differentials between Pre-and Post-test scores with regard to Sound Discrimination (SD) of different EGs.

Table 8.1.3: Mean differentials between Pre-and Post-test scores with regard to Visual Sequential Memory (VSM) of different EGs.

Table 8.1.4: Mean differentials between Pre-and Post-test scores with regard to Auditory Sequential Memory (ASM) of different EGs.

Table 8.1.5: Mean differentials between Pre-and Post-test scores with regard to Sound Blending (SB) of different EGs.

Table 8.1.6: Mean differentials of Post-test scores between different EGs and CG with regard to Visual Discrimination (VD).

Table 8.1.7: Mean differentials of Post-test scores between different EGs and CG with regard to Sound Discrimination (SD).

Table 8.1.8: Mean differentials of Post-test scores between different EGs and CG with regard to Visual Sequential Memory (VSM).

Table 8.1.9: Mean differentials of Post-test scores between different EGs and CG with regard to Auditory Sequential Memory (ASM).

Table 8.1.10: Mean differentials of Post-test scores between different EGs and CG with regard to Sound Blending (SB).
Table 8.1.1: Mean differentials between Pre- and Post-test scores of all Treatment Groups with regard to different Neuropsychological abilities.

Table 8.2.1: Mean differentials between Pre- and Post-test scores with regard to Spellings of different EGs.

Table 8.2.2: Mean differentials of Post-test scores between different EGs and control group with regard to Spellings.

Table 8.2.3: Mean differentials between Pre- and Post-test scores of all Treatment Groups with regard to Spellings.

Table 8.2.4: Mean differentials between Pre- and Post-test scores with regard to Free Writing of different EGs.

Table 8.2.5: Mean differentials of Post-test scores between different EGs and CG with regard to Free Writing.

Table 8.2.6: Mean differentials between Pre- and Post-test scores of all Treatment Groups with regard to Free Writing.

Table 9.1.1: Mean differentials between Pre- and Post-test for IQ of different EGs (VIQ).

Table 9.1.2: Mean differentials between Pre- and Post-test for IQ of different EGs (PIQ).

Table 9.1.3: Mean differentials between Pre- and Post-test for IQ of different EGs (FSIQ).

Table 9.1.4: Mean differentials of Post-test scores between different EGs and CG with regard to VIQ.

Table 9.1.5: Mean differentials of Post-test scores between different EGs and CG with regard to PIQ.
| Table 9.1.6: | Mean differentials of Post-test scores between different EGs and CG with regard to FSIQ. |
| Table 9.1.7: | Mean differentials between Pre-and Post-test scores of all EGs with regard to IQ. |
| Table 9.2.1: | Mean differentials between Pre-and Post-test scores with regard to Academic Achievement of different EGs. |
| Table 9.2.2: | Mean differentials of Post-test scores between EGs and CG with regard to Academic Achievement. |
| Table 9.2.3: | Mean differentials between Pre-and Post-test scores of all Experimental Groups with regard to Academic Achievement. |
