ACKNOWLEDGEMENTS

I face a tremendous paucity of words to express deep sense of gratitude to my supervisors Dr. Tejvir Singh, Reader; Dr. P. Venugopalan, Reader and Dr. Harjinder Singh, Reader, Department of Chemistry & Centre of Advanced Studies, Punjab University, Chandigarh. I consider myself privileged to have worked under the supervision of the best teachers in their respective fields.

Thanks are due to Prof. B. M. Deb & Prof. S. K. Vashisht, Ex-Chairmen and Prof. R. Kapoor, Chairman, Department of Chemistry & Centre of Advanced Studies in Chemistry, for providing me with all the basic facilities and encouragement.

I must place on record a sense of appreciation for technical, laboratory staff of the department, especially Morea ji, Harish ji and Tirlochan ji and Librarian Joginder Singh ji for their cooperation.

Technical assistance provided by Mr. Avtar Singh and Mr. Ramesh Sharma of RSIC, Punjab University, Chandigarh is highly acknowledged.

The ever-encouraging support, cooperation and understanding provided by superiors Dr. Anil, Dr. Sachin, Dr. Nancy, Dr. Soma and Manoj Sir is gratefully acknowledged.

There are few friends with whom the life becomes simple as worries fade away with their presence… I simply fumble for words to express the relation shared with Urmil for the ‘short period’ of ten years … It seems the words are still to be coined. She has been a Friend, a Sister and a Mother at times… It would have been impossible to achieve this goal without her. She stood by me when I was in blues, when I badly needed somebody to let me know that I can do it. Time has provided me the cherished opportunity to express my gratitude to her. I owe her all whatever I am today. May GOD give her all she rightly deserves! May she be happy always!

I am thankful to my dear friends Nishi Di, Renuka Di, Mandy, Seema, Kusum, Monika, Shivani, Adarsh, Munish, Virendra, Avinash and Sumeet for multiplying my joys and dividing my sorrows. The sincere support and inspiration provided by them pushed me to complete the present piece of investigations. Their valuable opinions have no doubt enriched this work.
The love, affection and undaunting support provided by my parents and dear brother Rick was a constant inspiration during present endeavor. When my enthusiasm waned they helped me in getting out of that, a feat that can be paid back in feelings and not in words. It has made all the difference the way they went out of their way and stood by me with incredible patience during the tough times of my research period. I shall always remain indebted to my Jiju and Didi for their blessings and emotional support. The smiles provided by the little sweet kids Danu and Vinny used to fade away all my sorrows. Thank you kids!

It's only by the grace of God and blessings of my respected Nana Ji & Nani Ji that I have been able to complete this work. Their encouragement has always kept me on track towards the fulfillment of this work.

It is my pleasure to acknowledge my dear husband Amit for all the emotional support and valuable suggestions during the final stages of this work. It was so sweet of him never to complain for the inconvenience caused to him because of my preoccupation with the thesis. This work would have been a futile endeavor without the active support of my Mother-in-law and Father-in-law who accepted, without resentment, my complete self-isolation during the final stages of this work. I would like to thank Madhur and Amit Jeeju for the constant encouragement provided by them.

The financial assistance and research fellowship provided by Council of Scientific and Industrial Research, New Delhi is gratefully acknowledged.

Preeti Walia
