List of Figures .......................................... (ix)

CHAPTER

I  INTRODUCTION ........................................ 1-16
   - Statement of the Problem ......................... 10
   - Objectives ....................................... 10
   - Hypotheses ....................................... 11
   - Delimitations .................................... 12
   - Limitations ...................................... 13
   - Operational Definitions of terms .............. 13
   - Significance ..................................... 16

II  REVIEW OF RELATED LITERATURE .................... 17-47
   - Physical fitness tests ......................... 17
   - Women Physical fitness studies ............... 25
   - Physical fitness studies related to age ...... 28
   - Some general studies ............................ 35

III  METHOD AND PROCEDURE ............................. 43-62
   - Design .......................................... 43
   - Sample ......................................... 48
   - Selection of variables ......................... 50
   - Selection of tests ................................ 50
   - Reliability of tests ............................ 51
   - Administration of testing programme .......... 52
IV ANALYSIS OF THE DATA AND RESULTS OF THE STUDY

- Skewness and Kurtosis ..... 63
- Percentile Norms for Physical Fitness Test Items ..... 88
- Mean, Median and Standard Deviation of four age steps on twelve physical fitness test items ..... 119
- ANOVA(2x4) factorial design on 't' test. ANOVA results for each variable are followed by the results of the 't' test ..... 132
- Main Findings ..... 176
- Discussion of Findings ..... 178

V SUMMARY, CONCLUSIONS AND IMPLICATIONS ..... 186-195

- BIBLIOGRAPHY ..... 196-203
