LIST OF TABLES

Table No. | Page No.
--- | ---
1.1 | Setwise Distribution of Skills, Time Duration and Number of Students in $I_1$ Integration Strategy | 100
1.2 | Setwise Distribution of Skills, Time Duration and Number of Students in $I_2$ Integration Strategy | 102
1.3 | Setwise Distribution of Skills, Time Duration and Number of Students in $I_3$ Integration Strategy | 104
3.1 | Treatment Combination of the 3x3x2 Experiment | 182
3.2 | Application of the Analysis of Variance in a Two-way Classification of Observers and Experimental Training | 189
3.3 | Summary of the Analysis of Variance and F-Ratios for the Data in Table 3.2 | 190
3.4 | Area and Number of Items in Each Area of the Schedule for Integrated Skills | 219
3.5 | Reliability of the Schedule for Integrated Skills | 220
3.6 | Intercorrelations of the Schedule for Integrated Skills (First Test) | 221
3.7 | Intercorrelations of the Schedule for Integrated Skills (Re-Test) | 222
4.1 | Distribution of Trainees with Respect to the Subject Area | 225
4.2 | Distribution of Trainees with Respect to the Sex Variable | 225
4.3 | Componentwise Significance of the Quantitative Gain from S1T Stage to S2R Stage for Skill of Introducing a Lesson | 235
4.4 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Fluency in Questioning

4.5 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Probing Questioning

4.6 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Reinforcement

4.7 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Explaining

4.8 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Stimulus Variation

4.9 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Recognising Attending Behaviour

4.10 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Blackboard Use

4.11 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Silence and Nonverbal Cues

4.12 Componentwise Significance of the Quantitative Gain from S.T Stage to S.R Stage for Skill of Achieving Closure

4.13 Quantitative Gain Across Subject Area Variable

4.14 Difference in Quantitative Gain Across Sex Variable within Subject Area Categories
4.15 Significance of the Difference in the Performance of the Trainees Between SjT and SgR Stages, of the Qualitative Scores for the Skill of Introducing a Lesson

4.15 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Fluency in Questioning

4.17 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Probing Questioning

4.18 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Reinforcement

4.19 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Explaining

4.20 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Stimulus Variation

4.21 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Illustration with Examples

4.22 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Recognising Attending Behaviour

4.23 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Blackboard Use

4.24 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Increasing Pupil Participation
4.25 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Silence and Nonverbal Cues

4.26 Significance of the Difference in the Performance of the Trainees Between S,T and S,R Stages, of the Qualitative Scores for the Skill of Achieving Closure

4.27 SA x S' Summary Table Giving Qualitative Gain Scores and Column Sums(Treatmentwise) for the Skill of Introducing a Lesson

4.28 Totals for the Levels of Subject Areas of the Skill of Introducing a Lesson

4.29 Totals for the Levels of Sex for the Skill of Introducing a Lesson

4.30 Summary of the Analysis of Variance for 3x2 Factorial Design in Respect of Qualitative Gain Scores for the Skill of Introducing a Lesson

4.31 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Introducing a Lesson

4.32 Difference Between the Levels of the Sex Variable with Respect to the Levels of Subject Area for the Skill of Introducing a Lesson

4.33 Difference Among Levels of Subject Area with Respect to the Level of Sex Variable for the Skill of Introducing a Lesson

4.34 SA x S' Summary Table Giving Qualitative Gain Scores and Column Sums(Treatmentwise) for the Skill of Fluency in Questioning

4.35 Totals for the Levels of Subject Area for the Skill of Fluency in Questioning

4.36 Totals for the Levels of Sex for the Skill of Fluency in Questioning

4.37 Summary of the Analysis of Variance for the 3x2 Factorial Design of the Qualitative Gain Scores for the Skill of Fluency in Questioning
4.38 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Fluency in Questioning

4.39 SA x S' Summary Table Giving Qualitative Gain Scores and Column Sums(Treatmentwise) for the Skill of Probing Questioning

4.40 Totals for Levels of Subject Area for the Skill of Probing Questioning

4.41 Totals for the Levels of Sex for the Skill of Probing Questioning

4.42 Summary of the Analysis of Variance for the 3x2 Factorial Design of the Qualitative Gain Scores for the Skill of Probing Questioning

4.43 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Probing Questioning

4.44 SA x S' Summary Table Giving Qualitative Gain Scores and Column Sums(Treatmentwise) for the Skill of Reinforcement

4.45 Totals for the Levels of Subject Area for the Skill of Reinforcement

4.46 Totals for the Levels of Sex for the Skill of Reinforcement

4.47 Summary of the Analysis of Variance for the 3x2 Factorial Design of Qualitative Gain Scores for the Skill of Reinforcement

4.48 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Reinforcement

4.49 SA x S' Summary Table Giving Qualitative Gain Scores and Column Sums(Treatmentwise) for the Skill of Explaining

4.50 Totals for the Levels of Subject Area for the Skill of Explaining

4.51 Totals for the Levels of Sex for the Skill of Explaining

4.52 Summary of the Analysis of Variance for the 3x2 Factorial Design of Qualitative Gain Scores for the Skill of Explaining
4.67 Totals for the Levels of Subject Area for the Skill of Recognising Attending Behaviour

4.68 Totals for the Levels of Sex for the Skill of Recognising Attending Behaviour

4.69 Summary of the Analysis of Variance for the 3x2 Factorial Design for Qualitative Gain Scores for the Skill of Recognising Attending Behaviour

4.70 (Gap)

4.71 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Recognising Attending Behaviour

4.72 Difference Between Levels of the Sex Variable with Respect to the Levels of Subject Areas for the Skill of Recognising Attending Behaviour

4.73 Difference Among Levels of Subject Areas with Respect to the Levels of the Sex Variable for the Skill of Recognising Attending Behaviour

4.74 SA x S' Summary Table Giving Qualitative Gain Scores and Column Sums (Treatmentwise) for the Skill of Blackboard Use

4.75 Totals for the Levels of Subject Area of the Skill of Blackboard Use

4.76 Totals for the Levels of Sex for the Skill of Blackboard Use

4.77 Summary of the Analysis of Variance for the 3x2 Factorial Design for Qualitative Gain Scores for the Skill of Blackboard Use

4.78 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Blackboard Use

4.79 SA x S' Summary Table Giving Qualitative Gain Scores and Column Sums (Treatmentwise) for the Skill of Increasing Pupil Participation

4.80 Totals for the Levels of Subject Area of the Skill of Increasing Pupil Participation
4.81 Totals for the Levels of Sex for the Skill of Increasing Pupil Participation

4.82 Summary of the Analysis of Variance for 3X2 Factorial Design in Respect of Qualitative Gain Scores for the Skill of Increasing Pupil Participation

4.83 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Increasing Pupil Participation

4.84 SA X S' Summary Table Giving Qualitative Gain Scores and Column Sums (Treatmentwise) for the Skill of Silence and Nonverbal Cues

4.85 Totals for the Level of Subject Area of the Skill of Silence and Nonverbal Cues

4.86 Totals for the Levels of Sex for the Skill of Silence and Nonverbal Cues

4.87 Summary of the Analysis of Variance for 3X2 Factorial Design in Respect of Qualitative Gain Scores for the Skill of Silence and Nonverbal Cues

4.88 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Silence and Nonverbal Cues

4.89 Difference Between Levels of the Sex Variable with Respect to the Levels of Subject Area for the Skill of Silence and Nonverbal Cues

4.90 Difference Among Levels of Subject Area with Respect to the Levels of Sex Variable for the Skill of Silence and Nonverbal Cues

4.91 SA X S' Summary Table Giving Qualitative Gain Scores and Column Sums (Treatmentwise) for the Skill of Achieving Closure

4.92 Totals for the Levels of Subject Area of the Skill of Achieving Closure

4.93 Totals for the Levels of Sex for the Skill of Achieving Closure

4.94 Summary of the Analysis of Variance for 3X2 Factorial Design in Respect of Qualitative Gain Scores for the Skill of Achieving Closure

4.95 The Significance of the Difference in Qualitative Gain Scores Across Subject Areas for the Skill of Achieving Closure
