ACKNOWLEDGEMENTS

It is with real pride and immense pleasure that I place on record my deep and sincere feelings of debt and gratitude towards my revered research supervisors Prof. R. Kapoor and Prof (Mrs.) P. Kapoor, Department of Chemistry, Panjab University, Chandigarh for their exceptionally versatile guidance, meticulous efforts, constructive discussions, persistent encouragement and whole hearted cooperation to bring this project to completion. It has been an honour and pleasure to work with them and I shall always cherish this association.

I am extremely thankful to Prof. B. M. Deb (Ex Chairman), Prof. S. D. Sharma (Ex Chairman), Prof. S. K. Vasisht (Ex Chairman) and Prof. D. S. Gill, Chairman, Department of Chemistry, Panjab University, Chandigarh for providing the necessary facilities. The technical personnel (Instrumentation) of the department are also duly acknowledged.

Sincere thanks are due to my fellow colleagues and friends; Dr. Anand Gupta and Anuradha for their helpful attitude and goodwill. Financial assistance provided by CSIR, New Delhi is also sincerely acknowledged. I owe debt of gratitude to Dr. Montserrat Corbella, Departament de Química Inorgànica, Facultat de Química, Universitat de Barcelona, E-08028-Barcelona, Spain, for doing low temperature magnetic susceptibility measurements, epr and extended hückel calculations and Dr. Carsten Thoene, Germany for doing X-ray structure. Thanks are also due to Dr. P. Venugopalan, Department of Chemistry, Panjab University, Chandigarh and Dr. Geeta Hundal, Department of Chemistry, G.N.D.U. Amritsar for doing X-ray crystal structures.
Suitable words run out of window when I think of a great patience and cooperation shown by my little daughter AAKANKSHA KATARIA. Last, but not least, the words at my command are inadequate to convey the depth of my feelings of gratitude to my affectionate parents, brothers, sisters and wife, Jyoti Kataria for their constant encouragement and moral support. I dedicate this thesis to my mother.

Finally, I thank God, the Divine who continues to make the impossible possible. With His blessings it was possible to accomplish this work.
