ACKNOWLEDGEMENTS

First and foremost I would like to thank my God for making this project complete. Without his blessings, the work of this magnitude would have not been possible.

This research work is made possible because of the support, cooperation and help extended by many people to whom I have the privilege of expressing my sincere thanks for successful completion of my work.

My sincere and heartfelt thanks to my guide Dr. C. S. Venkatesha, Professor, Department of Mechanical Engineering, University B D T College of Engineering (UBDTCE), Davangere, Karnataka, India, for introducing me to the problem. His invaluable guidance and timely support was outstanding throughout my research work. His intellectual remarks were of great use to me.

I express my heartfelt gratitude to Dr. Yadavalli Basavaraj, Professor and Head, Department of Mechanical Engineering, Ballari Institute of Technology and Management, Bellary, Karnataka, India, for his support extended especially during the final stages of my research work.

I would like to thank our director Dr. Yashvanth Bhupal, deputy director, Prithviraj Bhupal and principal Dr. U. Eranna of Ballari Institute of Technology and Management (BITM), Bellary, Karnataka, India, for their support during my entire research work programme. Their constant support to carry out the thesis work at BITM was encouraging.

I am extremely thankful to Dr. K. Revanasiddappa, Principal, UBDTCE, Davangere, Karnataka, India for according all the help in completing the academic matters.

I also wish to express my sincere thanks to Dr. E. S. Prakash, Professor and Head, Department of Mechanical Engineering, UBDTCE, Davangere, Karnataka, India for his cooperation in completing my research work.
I place on record my sincere thanks and I am greatly indebted to all my esteemed colleagues of the department of Mechanical Engineering for extending support and sharing my work load during this research work.

I also express my thanks to the non-teaching staff, Department of Mechanical Engineering, BITM, Bellary, for the help they extended during my research work.

My family members were also instrumental in completing the research work. Without their support and help, it would not have been possible for me to complete this work. I owe my sincere thanks to all my family members.

Last but not the least, I wish to thank all office staff of UBDTCE, Davangere, BITM, Bellary and Kuvempu University, Shankara Ghatta, Shimoga, Karnataka, India, and all those who are directly and indirectly involved in bringing out this research to a successful culmination.

SRIDHAR I.
