ACKNOWLEDGEMENTS

At the outset, I thank Dr. C. S. Venkatesha for suggesting the topic and providing constant guidance throughout the course of this research work. He had been a source of inspiration, direction and encouragement to me in pursuing my long cherished ambition of attaining higher academic levels. But Technological support provided by Dr. C. S. Venkatesha – Professor and Chairman Department of studies in Mechanical Engineering of University B D T College of Engineering, Davangere, through his incomparable expertness in Finite Element Analysis and Mechanical Vibration field I would not have accomplished this academic goal.

I sincerely thank Dr. Suresh Chandra Mohan, the Principal, University B D T College of Engineering, Davangere, for the kind co-operation extended during this research work.

I thank Dr. Abdul Budan, Dean of Department of studies in Mechanical Engineering of University B D T College of Engineering, Davangere, for his kind help and support during this research activity.

I take this opportunity to express my deep sense of gratitude and indebtedness to Dr. M. S. Bhagyashekar, Head of the Research & Development, Don Bosco Institute of Technology, Bangalore, for his constant encouragement, guidance, personal touch, warmth and generosity bestowed upon me during this research studies.
I remain grateful to the Management of Wayanamac Education Trust, Bangalore, Dr. K. Muralidhar, Principal and Prof. A R K Swamy, Head of Mechanical Engineering Department, Don Bosco Institute of Technology, Bangalore, for extending all possible help, support, encouragement and facilities extended throughout my research studies.

I take this opportunity to sincerely acknowledge Prof. P M Prabhuswamy, former Asst. Prof., Department of Mechanical Engineering, University B D T College of Engineering, Davangere, for his inspiration, cooperation and support during this research work.

I thank Mr. Dayanand G Rao for his timely and valuable co-operation extended during this research work.

I remain grateful to the fellow faculty and staff members of Mechanical Engineering Department, Don Bosco Institute of Technology, Bangalore, for their kind support during this research work.

Above all, I thank the Divine God, my family members, well wishers and friends, for helping me to know the path to be followed. During this research studies I had been immensely supported by all my family members, and I proudly say “Dad and mom, you are my faith, strength, support and encouragement; Suchitra, you are my inspiration, Suhasi and Sumukh you are my strength”. My in laws have encouraged, supported and blessed me during the entire tenure of this research studies.
Last but not the least, I thank all those who have directly or indirectly helped and supported me throughout this research work.

Suresh. P. M.
