ACKNOWLEDGEMENT

I would like to sincerely thank Dr. B. Siddeswarappa for providing the opportunity to perform this work under his guidance. I have benefited a lot from his constructive suggestions regarding the research work throughout the course. I am greatly indebted to him for his critical review of my research work at each and every level. I feel extremely fortunate to work under him.

I would like to thank the Principal, U. B. D. T. C. E., Davangere for having provided the required facilities to conduct the experimental work. I am grateful to the teaching faculty and the technical staff of Mechanical and Industrial & Production engineering departments of U. B. D. T. C. E., Davangere, for their constant support and help during the course of the work.

I sincerely thank Sri. S.H.Patel, Secretary S.J.M. Vidyapeetha, Chitradurga, Dr. G. N. Mallikarjunappa and Prof. E. Chitrashekar, Executive Directors of S.J.M Vidyapeetha, Chitradurga, for providing various facilities and help during the period of this research work. Dr. S. A. kori, Professor and Head, P G Studies, Basaveshwara Engineering College, Bagalkot for his valuable technical advise in this present investigation.

The author wishes to extend his thanks to Prof. P. S. Shashidhar, Sri. H. R. Manohara, Sri. M. K. Rudraswamy, Sri. S. Tharesh, Sri. Basava. T and other colleagues at the Mechanical, and Industrial and Production Engineering Departments of S.J.M. Institute of Technology Chitradurga, who contributed their help in completion of this work and thanks are also to those helped the author directly and indirectly.
I greatly acknowledge, with gratitude, affection, encouragement and blessings of my parents, brothers, brother-in-laws, parent-in-laws, wife and daughters who have provided a moral strength for completing this doctoral programme.

P. Mahabaleswarappa
