ACKNOWLEDGEMENTS

Research in engineering is a very challenging task. There are periods and peaceful weather interrupted by storms. In this endeavor I have been fortunate to have the able guidance and support of my research guide Dr. G.P. Prabhukumar, Principal, University BDT College of Engineering, Davangere, Kuvempu University. I wish to express my deep sense of gratitude to him.

My sincere thanks to Prof. Y. Vrushabhendrappa, Principal, Bapuji Institute of Engineering and Technology, Davangere for providing extensive support and facilities for carrying the research work.

I sincerely thank Prof. B.S. Samaga, Dean, NMAMIT, Nitte, for his timely help and suggestions in this research work.

Grateful thanks for the fruitful advice and suggestions made by Prof. B. Nagalingam, Professor of Mechanical Engineering, I.C. Engines Laboratory, Department of Mechanical Engineering, Indian Institute of Technology, Madras, Chennai.

I would like express my sincere thanks to Dr. A. Ramesh, Professor of Mechanical Engineering, I.C. Engines Laboratory, Department of Mechanical Engineering, Indian Institute of Technology, Madras, Chennai, for his invaluable suggestions and help rendering throughout my interaction with him.

The author wishes to express his profound sense of gratitude to shri Shamanur Shivashankarappa, Hon. Secretary and also the members of the management, Bapuji Educational Association, Davangere, for having given magnanimous support and encouragement.

I express my gratitude to Miss. Ashalatha, Assistant professor, Department of Electronics and Communication, B.I.E.T for helping me in the electronic circuit design for the injector operation required for this research work.
My thanks to Mr. ShivaKumar, for providing facilities for carrying the research work at Department of Instrumentation and Technology.

I thank all Heads of department and faculty of University BDT College of Engineering and Bapuji Institute of Engineering and technology, Davangere who have given moral support and timely help in many ways during my research.

My special thanks to Dr.G.C. Mohan Kumar, Dr.K.Sadashivappa, Dr.H.L. Vijayakumar and Subramanya Swamy of Bapuji Institute of Engineering and Technology, Davangere for their encouragement and support.

I am extremely grateful to Mico Bosch Group, Bangalore for providing the necessary electronic parts for this research work.

I thank Mr. Suresh and Mr.Siddesh as well as the remaining staff of Instrumentation Technology laboratory for their help and assistance during the development of electronic circuit design.

I thank Mr.umesh, Mr. Suresh, Mr.Mallikarjuna and other staff members of Department of Mechanical Engineering for their coordination and help rendered throughout this research work.

I thank my parents Shivarudrappa, Gangamma, and my Wife Savitha, Son Chi. Krithik for their moral support extended during the course of study.

I also thank all those who have contributed directly or indirectly in this research work.

S.KUMARAPPA
