ACKNOWLEDGEMENTS

I would like to convey my grateful and sincere thanks to my research supervisor Dr. J. Keshavayya, Reader, Department of Studies in Chemistry, Kuvempu University, for his keen interest, dedicated guidance and constant encouragement throughout the course of investigation leading to the preparation of this thesis.

I am thankful to Prof. V. P. Vaidya, Chairman, Dept. of Studies in Chemistry, Prof. P. Vasudeva Nayak, Dept. of Studies in Chemistry, Prof B. S. Sherigara, Dept. of Studies in Industrial Chemistry, and all the teaching and nonteaching faculties of Chemistry and Industrial Chemistry Dept., for their encouragement and advise during the course of my research work.

It is a pleasure to appreciate the timely help extended by my research colleagues.

I am grateful to Kuvempu University for providing me the facilities to do this research.

I take this opportunity to express my sincere thanks to Dr. A. R. Kulkarni, Dept. of Pharmacology, KLE’s College of Pharmacy, Belgaum and Dr. C. S. Shastry, Principal, Srinivas College of Pharmacy, Mangalore, for their advise and useful comments.

I would like to thank President Shri H. V. Dambal, Vice President Smt. Roopa Dambal and Secretary Shri S. V. Dambal of Soniya Education Trust, Dharwad for their help and encouragement.

I sincerely thank all my colleagues for their help and inspiration. I acknowledge the help of C. N. Noolvi, S. S. Patil and H. Chandrashekhar for printing this thesis.

Acknowledgements are also extended to IISc., Bangalore, USIC, Karnataka University, Dharwad, IIT, Mumbai and RSIC, Chandigarh, for providing spectral and analytical data. I thank Crystal Pharma, Hubli and Sun Pharma, Baroda, for providing me with the gift samples of drugs.

I am deeply indebted to my family members for their affectionate gesture, inspiration and support.

V. H. KULKARNI
