ACKNOWLEDGEMENTS

The research work embodied in this thesis has been carried out under the able guidance of Dr. V.P. Vaidya, M.Sc., Ph.D. Reader, Department of Chemistry, Kuvempu University. It gives me great pleasure to express profound sense of gratitude to Dr. V.P. Vaidya, for his personal care, stimulating discussions and inspiring guidance throughout the pursuit of this problem. He has been a constant and consistent source of strength, sharing my concern by enriching them with his own perceptions.

It is my pleasant duty to express my grateful and sincere thanks to Dr. P. Vasudeva Nayak, Prof. and Chairman, Department of Chemistry, Kuvempu University for providing infrastructural facilities.

I am very much grateful to Dr. B.S. Sherigara, Professor and Chairman, Department of Industrial Chemistry, Kuvempu University for his keen interest and encouragement.

I owe my gratitude to thank the Management of National Education Society, Shimoga for granting permission to carry out the research work. My profound thanks to Dr. Y.N. Manohara, Principal, National College of Pharmacy, Shimoga for permitting me to utilize the laboratory facilities of the college to carry out biological testing.

I am thankful to the authorities of Kuvempu University for granting permission to utilize the premises of the Chemistry Department for carrying out a part of the work.

I express my sincere thanks to Dr. K. Shivakumar, Head of the Department of Chemistry, G.M. Institute of Technology, Davanagere, for inspiring me to take up the research work. It gives me immense pleasure to recall the kind affectionate help rendered by Sri. K.S.R. Pai, Lecturer, College of Pharmaceutical Sciences, MAHE, Manipal, Sri. Satish Kumar Shetty, Asst. Prof., National College of Pharmacy, Shimoga, Sri. B.K. Shreedhar, Sr. Lecturer, National College of Pharmacy, Shimoga, Sri. K.B. Koteshwar, Sr. Lecturer, National College of Pharmacy, Shimoga, Sri. Vijayakrishna Aradhya, Sr. Lecturer, National College of Pharmacy, Shimoga, Sri. M.L. Vijayakumar, Asst. Prof., National College of Pharmacy, Shimoga and Sri. B. Gopinath, Sr. Lecturer, National College of Pharmacy, Shimoga for their unstinted support given to carry out the research work.
I remember and thank Mr. Ganapaiah, Agriculturist, Konehosur, Choradi, Shimoga District, for providing the root sample of the plant for research work.

I also thank Dr. S.N. Yoganarasimhan, Regional Research Centre, Bangalore for his valuable help in the identification of the sample.

I remember with love and gratitude, the pleasant memories I had with my research group Dr. K.P. Latha, Lecturer, J.N.N. College of Engineering, Shimoga, Dr. H.M. Vagdevi, Lecturer, Sahyadri Science College, Shimoga, Sri. K.M. Mahadevan, Lecturer, Department of Studies in Chemistry, Kuvempu University, Sri. Basavaraj Padmashali, Lecturer, Sahyadri Science College, Shimoga and Miss. Prathima Mathias, Project Fellow.

I am grateful to Dr. J. Keshavayya, Reader, Department of Chemistry, Kuvempu University and other staff members of the Chemistry and Industrial Chemistry Department, Kuvempu University for their constant encouragement.

I owe my thanks to Sri. Arun B. Joshi, Reader, NGSM Institute of Pharmaceutical Sciences, Mangalore, for his help in carrying out biological testing.

I lovingly acknowledge the moral support of my parents, my wife Smt. S. Gayatri, my son Mr. S. Anoop, my daughter S. Arpitha and all other family members who have unstintingly extended their co-operation throughout my research work. Smt. Jayashree Vaidya and Miss. Ashwini V. Vaidya remains evergreen in my memories for their warmth, affection and moral support.

All the non-teaching staff members of National College of Pharmacy, Shimoga are remembered for their kind co-operation.

Finally, I place on record, my thanks to Sri Krishna Computers, Shimoga for their excellent and neat data processing work in preparing this thesis.

C.S. SHREDHARA
