Acknowledgement

With the grace of almighty the opportune moment has come to acknowledge with fond remembrance all the explicit and implicit helps that I had received for successful completion of this study. I am greatly indebted to my respected guide Dr. A.S. Bhatti, Department of Physical Education, Panjab University, Chandigarh for his constant inspiration, goal-oriented encouragement, invaluable guidance, constructive criticism and research assignments which have enable me to achieve this work.

No words can express my gratitude towards My Parents, whose farsightedness, support and sagacity have liberated my mind from the shackles of ignorance. They have provided me the best educational facilities right from the beginning and encourage me to complete this project.

Special thanks indeed go to Dr. S.N. Sharma, Retd. Chairman, Department of Physical Education, Panjab University, Chandigarh who served as a lighthouse all through the research work. His diligent efforts and timely guidance have greatly helped me gain deeper insights into the field. Without his inspiration, I would not have been able to successfully handle this gargantuan task. In fact, I have no word to express my deep gratitude regards for him.

My profound thanks go to Prof. Gurmeet Singh, Chairman, Department of Physical Education, Panjab University, Chandigarh, without whose edification and assiduous efforts, I would not have known how to handle this herculean piece of work.

I deeply express my indebtedness to Mr. Vikram, Librarian, Department of Physical Education for his unreserved cooperation.

I also wish to thank Dr. J.S. Raghuv, Principal, Post Graduate Govt. College, Sector 46, Chandigarh, for providing a congenial working environment.

(i)
My heart is filled with gratitude for my colleagues, especially Dr. Mahender Singh and Dr. Rajesh the august faculty member at PGGC, Sector 46, and Dr. Ravneet Chawla, Govt. Home Science College, Chandigarh.

I also wish to thank all the Principals, Coaches and Physical Education teachers of the school and students for giving me their valuable time and support during the data collection.

Last, but not the least, I appreciate the sincere hardwork of Mr. Manoj, Sector 11, Chandigarh, for rendering me invaluable assistance in finalizing computerization and typing of this project.

Like the boiler-team on a ship, someone has to work behind the scenes. It is these back-stage inputs from my husband Dr. Surinder Singh Mander, my son Gurprince Singh Mander and daughter Amarinder Kaur Mander, which have manifested in the form of success. They always stood by throughout this ordeal and sacrificed their precious moments of togetherness without complaint. Indeed, they always have been a source of constant support and assiduous encouragement in my life.

I may halt for a while and avail this opportunity to place on record my gratefulness to all those, who have made a direct or indirect contribution towards the successful completion of this thesis.
