Acknowledgement

I am particularly indebted to my promoter Dr. B. Thippeswamy for encouraging and accepting me to do my Ph.D. under his guidance, which I consider as the best opportunity in my life. He suggested the possible strategies for understanding the bacterial black spot disease of mango and without his full support in supervision, valuable advice, enormous help and fruitful discussions this work would not have been possible. He helped me in each and every step of my research from beginning provided me the permissions to use all the facilities available in the department laboratory, required for my research work. I will not forget his concern, hospitality and support to me during the course of my study, and especially during experimental set up and in the writing stage. Finally, I am grateful to his kindness and concern and his readiness to discuss matters of the topic anytime, and his kindly invitation for me and the friends for many occasions many times at his home.

I express my deep debt of gratitude to my beloved Professor, Prof. M. Krishnappa, Department of Applied Botany, Kuvempu University, Shankaraghatta, for his able guidance, patience, keen interest and constant encouragement throughout the course of present study. I thank him for his personal concern, affinity and generosity with which he has guided me throughout the work.

My adorable thanks to Mr. N.B. Thippeswamy, Assistant Professor, Department of Microbiology, Kuvempu University, Shankaraghatta, for his help and encouragement during the course of present study.

I am also thankful to several other organizations that gave me permission to collect primary and secondary data and use of many of their books, journals, information data and offered to send me related articles that I might need. They include the Librarians, Director and Chief of the respected institutes, Institute of Microbial Technology (IMTECH,
Chandigarh), Indian Institute of Science (IISc. Bangalore), Gandhi Krishi Vignana Kendra (GKV, Bangalore), Department of Horticultural Crops of Karnataka Government (Lalbagh, Bangalore), Meteorological centre, observatory building, palace road, Bangalore, Horticulture officer friends from Shimoga and Sagar horticultural offices.

I am equally thankful to everyone who participated and helped during my field visits for sample collection especially, to the farmers and friends at various places in Karnataka for productive useful discussions.

Many thanks are due to Prof. B.B. Hosetti, Department of Applied Zoology, Prof. V. Krishna, Department of Biotechnology, Dr. Vijayakumar, Assistant Professor, Department of Wildlife Management, Dr. Narayan, Professor, Department of Environmental Science, for their valuable advice, help in various ways and constant encouragement.
