6(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Skill

6(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes On the Variable Skill

7(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Social Support

7(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes On the Variable Social Support

8(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Total Sports Performance Motivation

8(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes on the Variable Total Sports Performance Motivation

9(a) ANOVA (2 x 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Individual Attraction to Group-Task

9(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes on the Variable Individual Attraction to Group-Task

10(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Individual Attraction to Group-Social

10(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes on the Variable Group Integration-Social

VI
11(a) ANOVA (2 X 2) Results with regards to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Group Integration-Task

11(b) Mean and SD Values of Two Performance Group (College and University) and Gender (Male and Female) of Athletes on the Variable Group Integration-Task

12(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Group Integration-Social

12(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes on the Variable Group Integration-Social

13(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Total Team Cohesion

13(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes on the Variable Total Team Cohesion

14(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Physical Self Concept

14(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes on the Variable Physical Self Concept

15(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Social Self Concept

15(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes on the Variable Social Self Concept

VII
16(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Temperamental Self Concept

16(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes On the Variable Temperamental Self Concept

17(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Educational Self Concept

17(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes On the Variable Educational Self Concept

18(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Moral Self Concept

18(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes On the Variable Moral Self Concept

19(a) ANOVA (2 X 2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Intellectual Self Concept

19(b) Mean and SD Values of Performance (College and University) and Gender (Male and Female) of Athletes On the Variable Intellectual Self Concept

20(a) ANOVA (2 X m U2) Results with regard to Performance (College and University) and Gender (Male and Female) and Their Interaction Effects on the Variable Total Self Concept

20(b) Mean ad SD Values of Performance (College and University) and Gender (Male and Female) of Athletes On the Variable Total Self Concept
