ACKNOWLEDGEMENTS

I am deeply indebted to and express my gratitude to my mentor Prof. P.N. Mehra, D.Sc., F.N.I., F.N.A.S.C., F.R.S., former Head of the Botany Department and Director, Special Assistance Program for Advanced Research, Panjab University, Chandigarh and presently Research Advisor, Himachal Pradesh Krishi Vishva Vidyalaya, Palampur, for his helpful advice, useful comments, mature criticism and the use of his personal library during the course of the preparation of this work.

I express my great indebtedness to Prof. H.S. Sohi, Chairman, Botany Department, P.U. Chandigarh and to Prof. S.C. Verma, former Chairman, Botany Department, P.U. Chandigarh for providing me the necessary laboratory facilities during the course of my work.

I have received the valuable guidance in the identification of plants from Mr. S.K. Sanni of F.K.I., Dehradun to whom I deeply indebted.

I am grateful to Prof. P. Kashoo and Dr. B.N. Kohli of Botany Department, Kashmir University, Srinagar, for providing me the necessary laboratory facilities during my stay in Kashmir for doing the field work. My thanks are also due to Dr. B.K. Bhat, R.L., Srinagar, Kashmir, for some of his suggestions at the start of my work.

I shall be failing in my duty if I do not acknowledge my indebtedness to Mr. S.K. Kashyap and Mr. S.K. Verma of Botany Department, P.U. Chandigarh, who made me aware of some important aspects of the problems connected with the completion of my
task. I would also like to acknowledge the help given unconsciously by Miss Kanjna Koul, Botany Department, Kashmir University, Srinagar, discussions with whom over the long hours have crystallised many of the ideas incorporated in this work. Lastly I offer my thanks to all my colleagues for the help rendered to me from time to time.

Above all I do not have adequate words to express what I owe to my parents, to my brother Prof. D. N. Pandita and to my sisters, whose constant encouragements, blessings and financial help, contributed a great deal to the accomplishment of my task.
