ACKNOWLEDGEMENTS

Life doesn’t come with an instruction book - that’s why we have teachers. Since ancient times the tradition is to sit before the guru for blessings and achieving perfection. The teacher or the Guru is the one who enlightens our life and gives a direction which helps us to face any challenge or hurdle we confront in life. Guidance from enlightened and knowledgeable Guru helps us to meet any challenge and path towards goal. Also, well wishes of our near and dear ones and sincere friends contribute to play an important role.

I express my deep gratitude to Professor Meena Sehgal, my guide who unreservedly extended guidance, advice and constructive criticism in preparing this thesis. Her critical comments, disciplinary and perfectionist attitude has benefited a great deal in finishing my thesis. I feel profoundly indebted to her for sparing her valuable time in directing me to pursue a systematic approach for logical conclusion to my study.

But for consistent encouragement and guidance from Professor Jitendra Mohan, ICSSR National Fellow, Panjab University, Chandigarh, I would not have been able to complete my work with such perfection. He was always a source of inspiration for me.

I am extremely grateful to Dr. Harmeet Kaur, Principal Ramgarhia College, Ludhiana; Dr. V.K. Mehta, Arya College, Ludhiana; Mrs. S. Verma, Principal S.D. College, Ludhiana; Dr.N.S.Virdi, Principal, Government College, Hoshairpur; Mr. Ajit Singh, Principal S.G.G.S. College, Garhshankar, Hoshiarpur; Mr. R.P. Bhardwaj, Principal, DAV
College, Hoshiarpur; for their generous help in conducting the field study and collection of data related to my research work. I am also grateful to the students who spared their valuable time to be a part of my research, without whose contributions my work would not have been possible.

I am highly thankful to the Librarians of National University, Singapore; National Medical Library, New Delhi and Panjab University Library, Chandigarh and their staff for allowing me access to various documents which provided vital information in my study. I also wish to go on record in extending my thanks to Information Technology experts who have made it possible to have rarest of the rare information in the home library through internet. I would be failing in my duties if I do not thank Mr. C.M. Behl, Director, Computer Science, Panjab University, Professor Singla, Department Computer Science and Applications and the staff of the Computer Science Department, Panjab University, Chandigarh, who have helped me in computation of my research work.

I am deeply indebted to my respected parent-in-laws Shri. D.B. Salwan and Smt. Santosh Salwan, and my brother-in-law Mr. Rajesh Salwan, who were all the time very much considerate. Their whole hearted blessings and wishes helped me to devote maximum time to complete the research work. They were always accommodating in my long hours of absence from home, and my late working hours.

The driving force behind the completion of my thesis was my husband "Rajeev" who gave his unconditional emotional and moral support and was my mainstay throughout in the completion of my thesis.
My father’s desire for me to pursue research work and his strong faith in me helped me going. His selfless help, assistance, moral support and blessings helped me attain my goal. I owe my achievement to my parents, Shri. M.G. Sharma, Smt. Shobha Sharma, and brother Aash Sharma and sister-in-law Meenakshi Sharma, who kept me motivated. I also acknowledge my sincere thanks to my mamaji, Shri. N.K. Sharda and all my relatives and friends who stood by me when I needed them.

Finally, I express my thanks to all those who helped with their professional and expertise acumen in preparation and submission of the thesis in the present form.
