ACKNOWLEDGEMENTS

I would like to take this opportunity to express my earnest gratitude to all those special people who have in different ways contributed in completing my research work.

At this moment of accomplishment, first of all, I pay homage to my guide Late Prof. P.D. Sharma. This work would not have been possible without his guidance, support and encouragement. Under his guidance, I successfully overcame many difficulties and learned a lot. I can’t forget his hard times. Despite of his ill health, he used to discuss my project. His unflinching courage and conviction will always inspire me, and I hope to continue to work with his noble thoughts. I wish his soul roots in peace and solace in the heaven.

I take this great opportunity to express my gratitude and indebtedness towards my beloved Supervisor Dr Maninder Katar, an eminent teacher and connoisseur in the field of pharmaceutical sciences, it is my privilege to have been associated with her for the past four years as her doctoral student. During these years, I have developed a special veneration to my supervisor who is compassionate in nature and committed to her profession. I always perceive a quixotic and impeccable grandeur in every aspect of her life. Her integral view and mission for quality research were a boon to me since she was ever ready to provide all the research facilities at her students’ disposal. Her inspiration, moral support and care during tricky times went a long way in the successful execution of my research protocols. Her research approach, benevolent character and her integrity to her calling stand as bastions in ones profession. The time spent with her while discussions have left an indelible impression in my heart which I will cherish throughout my life ahead.

I express my profound sense of reverence to my co-supervisor and father figure Dr Tejvir Singh, for his valuable advice, constructive criticism and his extensive discussions around my work.

I am extremely thankful and indebted to my co-supervisor Dr Renu Chadha, Head of the Department, Pharmaceutical Chemistry, UFPS, Panjab University, for her constant encouragement, support and valuable suggestions.
I sincerely thank Professor V. R. Sinha, Chairperson, University Institute of Pharmaceutical Sciences (UIPS), Panjab University, who has always given me wholehearted support and encouragement for my research work by providing all the facilities that lead to successful completion of my project. I convey my great sense of gratitude and respect to him.

I sincerely thank Professor Karan Vasishht, Ex-Chairperson and Head of Department, Pharmacognosy, UIPS, Panjab University, for his encouragement and cordial nature. He was always available when I needed his advice. I also thank Professor Kamaljit Chopra, Head of the Department, Pharmacology, UIPS, Panjab University for providing me necessary help during my research tenure.

I am thankful to all the faculty members, especially Dr Neelima Dhingra and Dr Anurag for constant encouragement and unwavering support. I would like to thank Dr Pran Kishore, Lecturer, IMU, Malaysia, for making me well versed with Schrödinger software to carry out computational studies. I am also thankful to Dr Sarvesh for assisting me in physiochemical and kinetic studies.

I would like to express my special gratitude to Mrs. Visha, Mrs. Indra, Ms Jaspal, Ms Mandeep and all other office staff members for their encouragement and all other assistance in my research endeavor.

During this work, I have coordinated with many senior colleagues for whom I have great regard, and I wish to extend my warmest thanks to all those who have helped me with my work. I specially thank Dr Shruti, Dr Venkat, Dr Rajiv, Dr Manu, Mr. Rajkumar, Mr. Kaiser, and Dr Deepak for their consistent guidance and help during research work.

I warmly thank to my friends Rajwinder, Astha, Shweta, Sangeetha, Dimpy, Neha, and Diya for their constant support and encouragement during this project work. I owe thank to Prema, Preet, Mahavir, Kunal, Ashish, Anil, Mehek, Anupam, Poonam, Swati, Madhu, Janhvi, Pawamreet, Jamshed, Vipin, Puneet, Aanand, Poonam, Ranjana, Darpan, Rohit, Abhimanyu, Ashish, and perhaps many more for their wonderful cooperation.

I would like to express my sincere thanks to members of Central Instrumentation Laboratory especially Mr. Avtar Singh for his help rendered in carrying out NMR spectral
analysis during this work. It is impossible to forget technical help and cooperation extended to me by Mrs. Ranjit Kaur, Mr. Shaadil Lal, Mr. Ravinder, Mr. Sushil and other lab staff members. I also express particular thanks to Mr. B.D. Choudhary, Ex-Librarian, and Mr. Dayal Chand, Asst. Librarian for their kind cooperation.

I gratefully acknowledges the University Grants Commission (UGC), New Delhi, for awarding the Research Grant under RFMS Scheme [sanction no. F4-1/2006(RSR)/5-94/2007(RSR) dated 03/03/2009] to carry out the research work.

I am highly indebted to my father Sh. Krishan Lal who became my mother after the demise of my mother late Smt. Sudesh in my childhood. Mummy, I miss you always. I wish you could have been here to see the award of my highest professional degree.

I am also thankful to all the family members for their patience, moral support, unconditional sacrifices and faith in me. I also want to say a special thanks to our landlord family at Chandigarh, Ms Sapna for caring my family in our crucial times.

I express my deep sense of respect and gratitude towards my venerated husband Dr. Sameer Dhingra who has ocean of patience and affection towards me for assisting in my Ph.D. project. He always stood beside me wherever I found any problem and helped me with his valuable suggestions and timely advice. His crucial contribution made him a backbone of this research and so to this thesis. I am short of words to thank him for his unlimited patience, help and affection bestowed upon me during my entire research work.

At last but not least, I have no hesitation to say sorry to my adorable daughter Arvaa, who has sacrificed her childhood days for my better tomorrow.

Finally, Prayers to Almighty God for his blessings all the way
