3. DERIVATION OF HYPOTHESES

4. METHOD OF INVESTIGATION

Preliminary investigation
Description of instruments
  Wechsler's Intelligence scale for children
  Wallach and Kogan's measure of Creativity
  School examination
  Children's adjustment inventory
  Junior Eysenck's Personality inventory
  Socioeconomic status scale
  Tamil language proficiency test
  Hartshorne and May's test of deception
Design of final study
Sample
Procedure
Sequential administration
Data analysis

5. RESULTS AND DISCUSSION

1.0 Comparison between monolingual and bilingual children on intelligence
  1.1a Global intelligence
  1.1b Nonverbal intelligence
  1.1c Verbal intelligence
  1.1d Effect of levels of Tamil Proficiency within monolingual and bilingual group on intelligence

1.2 Effect on the components of nonverbal intelligence
  1.2a Perceptual analysis
  1.2b Ability to reason logically
  1.2c Perceptual organisation
  1.2d Perception of part to whole relationship
3.0 Effect of monolingual and bilingual background on academic achievement 153
3.1 Academic achievement 153
3.2 Achievement in English 155
3.3 Achievement in science 157
3.4 Achievement in mathematics 159
3.5 Achievement in Social studies 162
3.6 Effect of Tamil proficiency within monolingual and bilingual group 164

Summary 166
Related findings 167

4.0 Impact of monolingualism and bilingualism on adjustment problems of children 168
4.1 Adjustment problems exhibited at home 168
4.1a Aggressiveness exhibited at home 170
4.1b Nervousness exhibited at home 171
4.1c Withdrawal tendency exhibited at home 174
4.1d Social skills exhibited at home 176
4.1e Antisocial tendencies exhibited at home 179
4.1f Feelings of inadequacy 182
4.2 Effect of Tamil proficiency within the linguistic groups 184
Summary 186
Related findings 186
4.3 The effect of bilingual environment on the adjustment problems of children exhibited at school 188
4.3a Adjustment problems at school 188
4.3b Aggressiveness exhibited at school 190
4.3c Nervousness exhibited at school 193
4.3d Withdrawal tendency exhibited at school 195
4.3e Social skills exhibited at school 198
4.3f Antisocial tendency exhibited at school 200
4.3g Feelings of inadequacy at school 203
4.4 Effect of levels of Tamil proficiency within monolingual and bilingual group

Summary

Related findings

5.0 Comparison between two linguistic groups on cheating tendency

5.1 Cheating tendency in nonverbal task

5.2 Cheating tendency in arithmetic task

5.3 Cheating tendency in linguistic task

5.4 Effect of levels of Tamil proficiency within linguistic groups

Summary

Related findings

6.0 Effect of monolingual and bilingual environment on personality

6.1 Neuroticism

6.2 Effect of levels of Tamil proficiency within the linguistic groups on extraversion and neuroticism

Related findings
