

## AKNOWLEDGEMENT

I would like to gratefully thank **Prof. Prince Sharma**, ex-Chairperson, Dept of Microbiology, for his valuable guidance and advice throughout the work. His critical comments during experimentation have made the journey smooth and successful.

With my deepest emotions, I want to sincerely thank **Dr. (Mrs) Neena Capalash**, Chairperson, Dept of Biotechnology for her guidance, understanding and patience during my research work. The way she explored science is different and made me to think on the problem with different perspective. She will always be an inspiration to me.

I also thank **Prof. Kusum Harjai** for her support and guidance throughout my research work. I will also be thankful to **Dr. (Mrs) Vijay Prabha**, Chairperson, Dept of Microbiology, for providing me central instrumentation facility of the department.

I am also grateful to **Prof. Jagdeep Kaur**, ex-Chairperson, Dept of Biotechnology, for providing me all the necessary facilities for my experimental work. I express my worthy thanks to **Dr. Jagtar Singh** and **Dr. Kashmir Singh** for their timely assistance and co-operation.

I extend my special thanks to my colleagues **Gaurav, Nidhi, Aman, Antar, Richa, Nisha, Vijaya, Ravinder** and my friends “the entire scholars of Biotechnology department” for being there in my ups and downs and lending their unconditional support whenever I needed. I humbly acknowledge the help and co-operation given by non-teaching especially **Mr. Pritam, Mr Shashi** and **Mr Ramchander** for their cooperation.

I would like to give my heartfelt thanks to my parents, **Dr. K.P. Sarabhai** and **Smt. Kamini Sarabhai**, whose constant motivation and tireless support have accomplished my work successfully. I owe a special thanks to my in-laws **Mr. Virendra Kumar Srivastava** and **Smt. Uma Srivastava** for their co-operation and blessings.

Nothing could have been accomplished without the moral support and unconditional love and support of my husband **Mr. Vineet Kumar Srivastava** kept me going even in my toughest time.

Nothing in the world could make me feel special and happy. But the presence of **Vanisha**, my loving daughter, dispensed all the tensions and frustrations encountered during my research work. **“Thank you dear daughter for all the gestures showing your care and love to me”**

At last, thank to **The Almighty**, without whose grace this work could not have been accomplished.
